

Adobe Connect Chat from ST Subteam Leads Meeting #2-16 August @ 15:00 UTC

Brenda Brewer: Good day all and welcome to the S&T Subteam meeting with Discussion Papers Leads on 16 August @ 15:00 UTC!

Jonathan Zuck: microphone?

Pamela Smith: There you are, sir.

Eleeza Agopian 2: Never mind. Got on Adobe... VPN trouble again.

Fabro Steibel: Hi all

Alice Jansen: Thank you for joining us Fabro and Carlton!

Carlton Samuels: Howdy all.

Carlton Samuels: Getting into the house in 2 mins

Fabro Steibel: ok

Carlton Samuels: Ok. Now on the bridge

Carlton Samuels: @Drew: I agree the premise of the 2nd paper. It is the most important.

Jonathan Zuck: just lost sound. that only me?

Fabro Steibel: same here

Carlton Samuels: Safeguards anticipated certain behaviours/activities/outcomes that were considered bad overall for the DNS and stakeholders.

Carlton Samuels: I think we need to identify those as clearly as possible, map the safeguards and estimate/determine impacts.

Carlton Samuels: We broke down safeguards into classes. It would be very important for us to ID the impact along the classes.

Carlton Samuels: @Laureen: Yes, Karen's list is where all the action needs to coalesce

Fabro Steibel: ok

Jonathan Zuck: that might be a product of community feedback as well. just thoughts for now.

Carlton Samuels: See you all. Best

Eleeza Agopian 2: thank you

Fabro Steibel: Thank you!
