

Work Stream 1:

Include the review of SO and AC accountability mechanisms in the independent periodical structural reviews that are performed on a regular basis.

- These reviews should include consideration of the mechanisms that each SO and AC has in place to be accountable to their respective Constituencies, Stakeholder Groups, Regional At-Large Organizations, etc.
- This recommendation can be implemented through an amendment of Section 4 of Article IV of the ICANN Bylaws, which currently describes the goal of these reviews as:

The goal of the review, to be undertaken pursuant to such criteria and standards as the Board shall direct, shall be to determine (i) whether that organization has a continuing purpose in the ICANN structure, and (ii) if so, whether any change in structure or operations is desirable to improve its effectiveness.
