Terri Agnew: wiki agenda page: <https://community.icann.org/x/vBWsAw>

Cheryl Langdon-Orr (CLO): The certificate issue was what I noted as well

Terri Agnew: thanks Cheryl

Jeff Neuman: There are some phone numbers on the Participant list. It would help our records if you could state which phone numbers are yours :)

Terri Agnew: Please send me a private chat and I can also adjust the name on line regarding phone numbers.

Julie Hedlund: @All: The document that is up is unsynced so you can move it yourself.

Phil Buckingham: Hi i 'm in . No problems this end

Jeff Neuman: I think this order makes sense

Cheryl Langdon-Orr (CLO): Fine with the order

Phil Buckingham: no there is a problem getting into adobe

Phil Buckingham: think we / you need to look at overlaps with other work tracks and running topics/ issues in parallel

Cheryl Langdon-Orr (CLO): makes sense to me Avri

Phil Buckingham: that was our WT2 question . We are shooting / planning on that date

Phil Buckingham: yep that would make sense to us

Steve Chan 2: Sunday

Jeff Neuman: I prefer having specific questions to send out

Phil Buckingham: tricky one . would be inclined to wait and accumulate questions

Cheryl Langdon-Orr (CLO): yes WT 4 also needs to ask AC/SO CT's input as well ... Best to coordinate

Jeff Neuman: But lets document any questions as we go along

Steve Chan 2: I think it might be problematic if the request for input were to be 4x as long as CC1 (to account for all of the WTs)

avri: optimally i think sending out qustiosn from all at one time is optimal;

avri: well that was overly redundanly said

Cheryl Langdon-Orr (CLO): But for WT4 we need that feedback early in our program

avri: (referring to my my remark in case there is doubt)

Cheryl Langdon-Orr (CLO): :-)

avri: if someone needs to go before others are ready, then so be it. lets talk in our coordination meeting

Phil Buckingham: I guess the overriding is to enhance consumer choice, consumer trust and competition , innovation , but overriding stability security on the DNS

Cheryl Langdon-Orr (CLO): Agree Phil

Cheryl Langdon-Orr (CLO): good point to watch Avri yes

Phil Buckingham: What a question !

Jeff Neuman: Perhaps staff can come back to us on how Morality and Public Order was used in the last round and what the result was

Cheryl Langdon-Orr (CLO): yup Avri correct a few ALAC in it as well

Cheryl Langdon-Orr (CLO): :-)

Steve Chan 2: We'll work on tracking it down

Paul McGrady: I'm having trouble seeing this full chart. Is it added to the Wiki?

avri: i might be able to find it as well

Paul McGrady: Thanks!
