Dear Hiring Committee,

I am contacting you applying for a position of **Volunteer for the Second Security, Stability and Resiliency of the DNS (SSR2) Review Team as an Independent Expert**. I was referred to you through my colleague Christine. I love ICANN objectives and want to be part of it.

I am a university graduate from UR – College of Science and Technology. I did Electrical and Electronics Engineering, majoring in Electronics with concentration in Telecommunications. My classes have given me an understanding of the work and importance of the technical field. Along with the academic knowledge, I have also gained practical experience through an internship at UR – Management Information System Department, working closely with a System Administrator. I had also the opportunity to have a professional training within EUCL at **Dispatch and Network Control Center (D & NCC)**. In addition to my academic orientation, these experiences pushed me to love ICANN objectives including, “Preserving security, stability and resiliency of the DNS,” as it directly reflects my passion. The reason I am applying to be part of **SSR2-RT**, serving as a volunteer.

My resume is enclosed for your consideration. Thank you for your time, and I look forward to hearing from you soon. [REDACTED]

Sincerely,

Singed
