

ARAVINDH SATYAMOORTHY

LETTER OF MOTIVATION

August 8, 2016

Dear Sir / Madam,

I have attached my Letter of motivation in consideration to be part of the Volunteer Review Team Member on the SSR2-RT. After reviewing the position description and learning more about the position, I believe my experience and skill set are a strong fit for this position.

I am an experienced developer and programmer with a strong background in successfully managing all aspects of the Software Development Life Cycle. In addition, I am skilled in performing root cause analyses that assist in moving projects forward and address stakeholder concerns. The details of my technical expertise as well as project profile is included in my resume.

During my career at Cognizant, I have led and participated in a variety of projects, performing roles from developer to project manager, including most recently, my role as defect manager for a large enhancement project. I have designed and developed projects in a diverse array of environments for the healthcare, insurance, retail and logistics industries.

I would be happy to help structure the mandate requirements and develop appropriate metrics to guide the review process ensuring a smooth collaborative process. Such a process will lead to a clear outcome that can best present the global expansion of top level domain names as a necessary and well managed initiative.

If selected, I would be committed to engage in an objective and constructive review process of ICANN's responsibilities as defined in the Affirmation of Commitments and look forward to the opportunity to contribute to the maturation of ICANN with suggestions as to how ICANN can also be more recognized with numerous internet users who do not know about ICANN and therefore also generating business interest with other large corporations and governments.

I look forward to meeting with you to discuss how my background and technical expertise can help ICANN reach its goals.

Best regards,

Aravindh Satyamoorthy
