Dear Icann team,

My name is Lia Marcia Solis Montaño, I was born in ███████████ Bolivia and I live in █████ Bolivia. I'm Systems Engineer, currently I work at ENTEL S.A. main ISP in Bolivia, my main functios is manage and keep the DNS servers stability, also the services focus on end users, I'm membership contact of LACNIC, then I should manage the reports of incidents with end users concerning the cases of phishing, attacks, spam, etc. So, I participle in WARP group of CSIRT of Latin America Region.

I was fellowship at Icann56, where I knew this environment and overall mutistakeholder model, and I had identified whit ISP groups and IETF group. Every year I attend the LACNIC events, and we have opportunity of meet "DNS people" in own Region.

Is in this context that I think that I can contribute with the hard work of keep DNS stability in global level, my experience and enthusiasm should help with this work space.

Best Regards

Lia Marcia Solis Montaño
