

## MOTIVATIONAL STATEMENT

All my life, Interest, Personality and Self motivational needs have led me to this space and time. I have a degree and I suppose I have the required preparation for the rigorous road ahead of me. My education has provided me with an intangible quality of an analytical mind, which is the most fundamental requirement to do anything I set my mind on.

Currently, I am working at National Information Technology Agency (NITA). It is the agency responsible for implementing Ghana's IT policies. Its mandate includes identifying, promoting and developing innovative technologies, standards, guidelines and practices among government agencies and local governments, as well as ensuring the sustainable growth of ICT via research & development planning and technology acquisition strategies to facilitate Ghana's prospect of becoming a technology-driven, knowledge-and values-based economy as espoused in the e-Ghana project which ideally seeks to assist the Government generate growth and employment, by leveraging ICT and public-private partnerships.

My day to day working experience and as an essential internet provider in the country, I am very much interested in domain name systems since it's the cornerstone of the internet space. I have the ability to think through packed documents and get work done on time.

I'm a passionate person and I see the internet space as a great tool for me to excel and broaden my knowledge on a wide range of events and programs. DNS is an interesting concepts and I always want to learn something new about it.

I will bring on board the spirit of a good team player and the enthusiasm to achieve positive results for the overall growth of the second security and resiliency of the DNS review team.
