LETTER OF MOTIVATION

Dear Sirs,

I am a Scientist from Indian Computer Emergency response Team (CERT-In) ,Ministry of Electronics and IT,Govt. of India. I have been nominated from CERT-In,MeitY for the Second Security, Stability, and Resiliency of the DNS (SSR2) Review Team.

As an Incident Handler at CERT-In, I have investigated many high profile Cyber Security Incidents both in India and outside and found out the attackers, their modus operandi and the vulnerabilities exploited in these cyber security breaches. These incidents include security breaches in DNS also. At CERT-In, we have a "Early Warning Framework" to identify malicious domains based on DNS requests .

Being an incident handler and a security researcher in the area of Information security, I think I can contribute much in this area. I can give the technical inputs to the team based on my incident handling experiences and can review the draft guidelines/ papers that should be prepared during the project period.

So , I am hereby declaring my interest to join "Second Security, Stability, and Resiliency of the DNS (SSR2) Review Team". My nomination is supported from Indian Computer Emergency response Team (CERT-In) ,Ministry of Electronics and IT,Govt. of India. I would like to participate in **Security and Stability Advisory Committee (SSAC)**.

Thanks and regards

Noorul Ameen, GPEN

Scientist 'C'/ Deputy Director

CERT-In, MeitY, Govt. of India
