

MOTIVATION LETTER

13 September 2016

Dear Sir/Madam,

Hereby I report my interest to participate as volunteer in Second Security, Stability, and Resiliency of the DNS (SSR2) Review Team. I am ready to contribute and I believe my knowleges and skils(see my resume) might be in service for the group.

I would like to participate as global community representative from Ukraine. ICANN classify Ukraine as underserved region, if more active people will be represented in the ICANN's community this will soon change.

A few words about myself:

- I am familiar with volunteer work, I am co-founder of local non-profit organization, which activity isn't relates to Internet and my professional experience. So I just mentioned this to note that I am fully aware what is volunteer.
- I would love to work in the international invironment and in the international team, I worked in the international invironment for 6 years during my past jobs.

Best Regards,
Olha Vasylevych

Enclosure:

- Resume;
- Statement of interest.
