TO General Director of ICANN

RE: APPLICATION FOR A VOLUNTEER

Dear Sir,

I would like to apply for a Volunteer in your institution that you are responsible, in post of **Volunteer of DNS (SSR2) Review Team** and I hope that I am qualified enough to perform this volunteer successfully. And I want to be Advisory Committee.

In fact, I have a degree in Computer Science, am interested to work in your institution because the duties and responsibility are related to the trainings I gained from my studies and experiences. And for improving security for the internet's system of unique identifiers that ICANN coordinates.

For further details, you will note related documents including my curriculum vitae .Once given this opportunity; I will perform my duties and responsibilities.

Hoping that my request will meet your kind consideration.

Yours Faithfully
