Professional and Voluntary Experience

===

I am working as an IT Tutor/Digital Analyst at Middlesbrough Community Learning Centre (MCLC), Middlesbrough, UK.

I am also member of MCLC's Advisory Group. The Advisory Group works in partnership with other education bodies in Middlesbrough. The work of Advisory Group includes developing educational projects for youths' empowerment and employability, range from the age of 18 years. The Advisory Group works to initiate projects on the utilization of £1Million fund provided by the UK government to the MCLC.

I am a Vice-Chairman of North Ormesby Community Council, North Ormesby, Middlesbrough, United Kingdom. I work with Middlesbrough council's representatives, British Police, and other security agencies working to counter anti-social behaviour and reduce crime, and to providing better environment for the residents of North Ormesby.

I am also working as a Consultant for a US based consulting management on Internet Security, Internet-of-Things and Telecommunications from 2011 till date.

In the year 2009, I worked as a Technical Operator for energy service firm, Eaga Group Plc (Now Carillion Group) UK.

I have also worked for British Telecommunications, as a Technical Support Engineer between the March 2008 and December 2008.

I worked in Nigeria, at Longman Nigeria Plc (now Learn Africa Plc), as a Computer Control Officer between the year 2002 and 2005.
