

Michelle DeSmyter:Dear All, Welcome to the CWG-UCTN call on Monday, 19 September 2016 at 21:00 UTC.

Maxim Alzoba (FAITID):Hello All

Maxim Alzoba (FAITID):can not use mic :(

Maxim Alzoba (FAITID):audio testpositive

Milagros Castanon:hello to every one

Carlos Raul (GNSO Co-Chair):thanks to all

Milagros Castanon:carlos can you hear me?

Carlos Raul (GNSO Co-Chair):no Milagros, te vemos pero no te oimos.....

Carlos Raul (GNSO Co-Chair):wow tow good friends ina row

Carlos Raul (GNSO Co-Chair):my lucky day

Milagros Castanon:no worries. I can hear you well.

Carlos Raul (GNSO Co-Chair):hello to Rosalia Morales from nic.cr

Rosalía Morales:Hola Carlos!

Carlos Raul (GNSO Co-Chair):LAC is strongly represented today :)

Rosalía Morales:Go LAC!

Carlos Raul (GNSO Co-Chair):yes Emily

Carlos Raul (GNSO Co-Chair):just a few minutes to get some excellnet Costa Rica coffee

Maxim Alzoba (FAITID):@Carlos, it is unfair to talk about this kind of coffee

Carlos Raul (GNSO Co-Chair)::) we have a perfect sunny afternoon, with alot of volcano ashes in the air. Thats what makes the coffee so special.....

Maxim Alzoba (FAITID)::)

Bart Boswinkel:Hi All

Annebeth Lange:Hello everyone

Carlos Raul (GNSO Co-Chair):Happy to welcome Steve Chan and hoping he is back in good health!!!!

Steve Chan:Thanks Carlos, I'm back and feeling good.

Carlos Raul (GNSO Co-Chair):great

Carlos Raul (GNSO Co-Chair):ok

Carlos Raul (GNSO Co-Chair):lets go now

Cheryl Langdon-Orr (CLO):Top of the hour

Heather Forrest:good morning everyone

Cheryl Langdon-Orr (CLO):morning to you Heather

Mirjana Tasic .rs:Hello everybody

Alexander Schubert::-)

Alexander Schubert:The gNSO PDP doesn't care about the scope of our group. They just care about new gTLDs.

Alexander Schubert:zes

Sebastien Pensis:Loud and Clear

Alexander Schubert:hear me?

Sebastien Pensis:You have gone away

Annebeth Lange:No, Alexander, we do not hear you

Annebeth Lange:Yes

Bart Boswinkel:Alexander is that new hand

Cheryl Langdon-Orr (CLO):loud typing

Bart Boswinkel:?

Timo Vöhmar:I cant see what is wrong on my side

Alexander Schubert:I get feedback from many entties in gNSO and GAC that they are waiting for input from our CWG...

Alexander Schubert:Timo: At the top of the application you see a phone icon -activate the mic!

Annebeth Lange:Alexander, do they wait for material input from the CWG, how to resolve the differences?

Alexander Schubert:Seems they generally are being told in some way that to avoid dublication of work they should not touch the topic.....

Timo Vöhmar:looks a bit better - thank you Alexander

Robin Gross:I agree with Heather about us suggesting no harmonization.

Carlos Raul (GNSO Co-Chair):no harmonization possible Robin

Robin Gross:Agreed.

Carlos Raul (GNSO Co-Chair):Danke

Cheryl Langdon-Orr (CLO):Yup indeed it was Heather

Cheryl Langdon-Orr (CLO):our Report can indeed contribute YES

Laura Watkins:Is anyone else's audio dropping out?

Carlos Raul (GNSO Co-Chair):no Laura

Heather Forrest:Heather - not Annebeth

Cheryl Langdon-Orr (CLO):and there is plenty for the Reserved names ST to get on with pre our Report

Heather Forrest::)

Timo Vöhmar:i can hear you fine

Timo Vöhmar:ok, i put my comments here

Timo Vöhmar:sorry

Alexander Schubert:Activate the micro atthe top fo the application - andu

nmute!

Heather Forrest:Another thing I didn't mention is a follow up on a concern raised by Annebeth in our last meeting about ccNSO not being comfortable to contribute to the PDP without some guidance and support

Cheryl Langdon-Orr (CLO):We *do* need to facilitate that where w csn
Heather yes

Heather Forrest:GNSO staff have a 'newcomers' webinar and I have discussed this with staff to ensure that such a webinar could be run to assist ccNSO, ALAC, etc in participating in the PDP

Timo Vöhmar:it is my believe that the question about country codes and names can only be solved in well balanced cross community working groups. I do not believe gNSO PDP is what suits here. So lets list the flaws that did not allow this cwg to achieve its goals and propose to form a new and better one.

Mirjana Tasic .rs:Annebeth point on different definitions between ccNso and GNSO is very inportant

Alexander Schubert:In regard of the next round gNSO PDP the most (maybe only) issue is 2012 AGB § 2.2.1.4.1

Heather Forrest:I have a suggestion

Alexander Schubert:Whereas our WG scope is MUCH broader!

Rosalía Morales:I agree with Alexander and Timo

Cheryl Langdon-Orr (CLO):worth exploring that option Bart

Alexander Schubert:AGREEMENT!

Maxim Alzoba (FAITID):after all it is the comunity which is split in oppinion on how to treat 3 letter codes

Cheryl Langdon-Orr (CLO):OK with 1 and 3

Alexander Schubert:1 and 3 are fine - but the next round new gTLD planners should stop waiting for output from us....

Cheryl Langdon-Orr (CLO):Good plan Heather

Alexander Schubert:What we are doing is independent from the next round PDP.....

Annebeth Lange:I agree on 1 and 3. I think that also coincides with the GAC advice in Helsinki

Rosalía Morales:I also agree with 1 and 3

Laura Watkins:Sorry my connection dropped. I am back now but on chat only

Alexander Schubert:Same happened here

Annebeth Lange:Joke, could you make the script larger?

Heather Forrest:I also suggest that we have a call that involves the Subsequent Procedures co-chairs and the co-chairs of the particular workstream dealing with geonames. There have been some comments made about their work that they would find helpful to hear and I think we would benefit from understanding their perspective on their own mandate

Heather Forrest:mandate

Heather Forrest:Annebeth - you can use the plus sign below the document to make it larger on your screen

Carlos Raul (GNSO Co-Chair)::)

Annebeth Lange:Thanks, Heather

Michelle DeSmyter:Also, to enable full screen mode, use the four arrows pointing outward on the gray bar at the top of your screen

Annebeth Lange:OK, but then I cannot see the chat at the same time

Carlos Raul (GNSO Co-Chair):you need a 27" screen annebeth

Carlos Raul (GNSO Co-Chair):then you can see everything

Annebeth Lange:Bart, what you have summarized of the "history" is very useful. Especially the evolution of the AGB.

Annebeth Lange:I am working on my laptop from home, Carlos, it is 11.45 pm here!

Annebeth Lange:Another interesting issue if you look at the evolution of the AGB - and the Reserved Naes WG - and our preliminary recommendation on the use of 2-letter strings - they all seem to have the same result.

Maxim Alzoba (FAITID):in the chat menu it is possible to choose chat sounds - so you need to look into chat only when something was added (you hear blip sound)

Heather Forrest:This is an excellent record of our work - clear that we have done much more than we perhaps realised! I haven't had a chance to review comprehensively but will do so this week

Cheryl Langdon-Orr (CLO):Indeed excellent Doc!

Annebeth Lange:Bart there are still a lot of comments to this documents that haven't been sorted out, especially from page 17 onwards. How do we deal with it? I think the staff has done an excellent work here.

Annebeth Lange:I agree with you, Carlos, an excellent document.

Carlos Raul (GNSO Co-Chair):it is 1 year of work there

Carlos Raul (GNSO Co-Chair):2 & 1/2

Annebeth Lange:I agree, Heather

Robin Gross:Agreed.

Heather Forrest:Let's see if we can agree on the progress report in our next call

Cheryl Langdon-Orr (CLO):Yes Heather good plan

Heather Forrest:the interim report is a much longer work that will undoubtedly need more time, so we should get started on our comments straight away but we certainly won't have this finalised in the next call

Heather Forrest:Agree - one more call to finalise progress report and another call to agree on interim report. Ideally progress report should be published before Hyderabad for discussion within our chartering organisations and the interim report should be final discussions in Hyderabad

Annebeth Lange:I agree

Heather Forrest:Important that we make a big push here to get as much done before Hyderabad as possible

Annebeth Lange:Thank you for good chairing, Carlos

Maxim Alzoba (FAITID):bye all

Heather Forrest:Thank you everyone! Huge thanks to staff for work on the documents

Alexander Schubert:tnx

Rosalía Morales:bye all

Sebastien Pensis:Thank you

Robin Gross:Thanks, bye

Timo Vöhmar:bye

Mirjana Tasic .rs:Bye
