

Cross Community Working Group on Enhancing ICANN Accountability

Workstream 2 - Human Rights Subgroup

Meeting 8 - October 11 - 19:00 UTC

Agenda

1. Administrivia

Roll call, absentees, Sols, etc

2. Discussion on Working Methods (Google Docs, Drafting Team)

3. Analysis and discussion of proposed definition of applicable law by David McAuley

4. Analysis and discussion on the progress of the drafting team working on the new proposal for FoI

5. AOB

Proposed definition of applicable law

The term “applicable law” as used in this context refers to that body of law that binds ICANN at any given time and in any given circumstance. It may be statutes, rules, regulations and the like, as well as decisional orders/rulings of courts having appropriate jurisdiction, that take effect through the power of a legitimate governmental entity. “Applicable law” is changeable over time and can work disparate impacts around the world. While the concept of “applicable law” eludes cataloging it is ascertainable in the context of a specific question or issue.

Analysis and discussion on new draft FoI document produced by Draft Team
