Raoul Plommer: I recommend everyone to get a dial out and use audio on their mobile only

Raoul Plommer: that way it's easy to mute mics and avoid echoes.

Poncelet Ileleji: am in senegal so can't do dial out as am roaming will just use adobe

----- (03/06/2018 13:05) -----

Sam Lanfranco: With this lean attendance I think that Raoul should just point out anything that needs attention and that constitutes the meeting strategy

----- (03/06/2018 13:08) -----

Poncelet Ileleji: @Raoul, I have reviewed and reviewed, personally except you or others have any things with this current draft am personally fine

Raoul Plommer: I made an additional sheet on this spreadsheet called ISSUES. We should list all the issues that need to be discussed before finishing

Poncelet Ileleji: @Raoul, I mentioned I was fine with that spreadsheet

----- (03/06/2018 13:13) -----

Sam Lanfranco: Is anyone speaking yet.. I just hear silence.

----- (03/06/2018 13:19) -----

Poncelet Ileleji: @Raoul, with the public comments i think it will go through as its line with ncuc only that organisational centric in focus, all the little queries does not define any need to change anything as the language is simplified enough for me

----- (03/06/2018 13:21) -----

Poncelet Ileleji: @Ganga focus on your area which is number 10, look at it clearly so we move on as Raoul has said

----- (03/06/2018 13:23) -----

Raoul Plommer: we are speaking Sam
----- (03/06/2018 13:24) -----

Maryam Bakoshi: @Sam, all good now?

Sam Lanfranco: Got it - okay

Poncelet Ileleji: @Raoul since i do not have any extra to add can i leave as me am fine
