Pascal Bekono:Is it possible to add an Annex in this document with those recommendations ?

Larisa Gurnick:Just a reminder - over a year has already gone by since the time that these recommendations were formulated, so it makes sense that some of the work that was underway would be completed by now.

Pascal Bekono:The document is well done. It's a good job. I don't have many comments; Maybe comments will be made around the implementation, methodology

Lawrence Olawale-Roberts:has staff considered the possibility of breaking the task into bits where workgroups could be formed to deal with them

Marika Konings:@Pascal - recommendation #7 reads 'That Stakeholder Groups and Constituencies engage more deeply with community members whose first language is other than English, as a means to overcoming language barriers.' The implementation plan may look at the different options that would meet the intent of this recommendations, factoring in feasibility as well as budget implications.
