Michael Flemming:Hi Steve

Cheryl Langdon-Orr (CLO):hi all

Annebeth Lange, ccNSO:Hello from Norway, everyone!

Michelle DeSmyter:Hello, welcome!!

Amr Elsadr:hvordan går det, Annebeth? Your AC room mic is not muted. ;-)

Annebeth Lange, ccNSO:I am fine, is it ok now?

Amr Elsadr:Yup.

kavouss arasteh:HiAll

Jorge Cancio (GAC Switzerland):Hi all

Harold Arcos:Hi all from sunny Venezuela

kavouss arasteh:Please kindly speak slowly and clearly separate syllabus one from another tks

kavouss arasteh:speak slowly

Jorge Cancio (GAC Switzerland):About the Hyderabad Meeting, I would like to once again thank Jeff and Avri for coming to the GAC session on new gTLDs, where we had a good discussion. See the transcript under https://urldefense.proofpoint.com/v2/url?u=http-3A_schd.ws_hosted-5Ffiles_icann572016_f1_I57-2520HYD-5FSat05Nov2016-2DNew-2520gTLDs-2520-2D-2520Issues-2520for-2520Subsequent-2520Rounds-2Den.pdf&d=DgIFaQ&c=FmY1u3PJp6wrcrw113mSVzgfkbPSS6sJms7xcl4I5cM&r=8_WhWIPqsLT6TmF1Zmyci866vcPSF04VShFqESGe_5iHWG1BLwwwhehFBfjrsjWv9&m=WZ2pK-lfiPi3jjk4twIgf-eYsIGsIG-PA4mM-gnNWds&s=vNxeaKJgejvqX2oZpW5_Bu82GJCIi8xF3nRv0DjL35k&e=

Vanda:hi sorry to be late

Emily Barabas:Transcript from HYD meeting:

Christa Taylor:I don't have anything special to add; call will get everyone up to speed; Had some great insight

Vaibhav Aggarwal:hi Guys

Christa Taylor:nope

Martin Sutton:Hi Jeff, I have a lot of background noise here so will type - how will the ICANN57 session(s) feed back into the working group work? Will this be up to the individual tracks or into the CC1 review (or both)?

Christa Taylor:For the record it was Alice Munyua

Christa Taylor:Despite trying, we didn't connect while in Hyderabad

Christa Taylor:With other members re: Applicant Support

Annebeth Lange, ccNSO:It will be very helpful if everyone writes their stakeholdergroup after their name

Cheryl Langdon-Orr (CLO):it's 0212 here in AU so not suprised Tom Dale is an apology :-)

Jorge Cancio (GAC Switzerland):I would very much appreciate this group, through the best appropriate means, to take on the inputs made during the mentioned GAC session, which are reflected in the transcript of it

Mary Wong:As of 22 November, there were 4 self-identified GAC members who are Members of this WG, not including the GAC Secretariat or individuals who are GAC members/representatives but did not put down a GAC affiliation. There are also several GAC members who signed up as Observers to this WG.

Jorge Cancio (GAC Switzerland):Good points from Donna - I feel we could build on the experiences had in Helsinki and Hyderabad and structure the meetings in an even more interactive bilateral sessions

Annebeth Lange, ccNSO:And don't forget that the ccNSO has strong opinions on country & territory names as well

Cheryl Langdon-Orr (CLO):noted Jorge can the link to the transcript go the the list *indeed any of the links put here in chat), as for me at least using an android tablet no links are 'live'

Mary Wong:Alice Munyua and Olga Cavalli are signed up as Observers to this WG (again, as of 22 Nov).

Cheryl Langdon-Orr (CLO):Indeed they do Annabeth :-)

Emily Barabas:Kavouss, would you mind typing the names of these people you mentioned so that I can add them to the notes?

Donna Austin, Neustar:Annebeth, I think on geographic names I think it will be very important to have a moderated session with all the different work efforts related to geographic names.

Vanda:Emily Mary already wrote the names above

Annebeth Lange, ccNSO:I agree, Donna.

Emily Barabas:thanks

Cheryl Langdon-Orr (CLO):Agreed Donna and cearly not ust for GAC ;-)

Cheryl Langdon-Orr (CLO):++ Avri

Vanda:guess we alla gree with Avri

Phil Buckingham:sorry I am late . Michael and I are looking forward to our WT2 call tonite at 20.00 UTC . Hope you can make it . Newcomers always welcome. It is on Reserved Names. at the Top Level

Harold Arcos:Yes @Vanda +1 Avri

kavouss arasteh:For ,IGO and NIGO,Jorgge was very active in GAC

Michael Flemming:Person on top is always first

Jorge Cancio (GAC Switzerland):old hand

Michael Flemming:I believe

Cheryl Langdon-Orr (CLO):+++ Annabeth that is essential

Alan Greenberg:Indeed.

Annebeth Lange, ccNSO:I agree with Jorge on the country & territory names. There are quite a lot of views available from the last round that could be useful to "re-use".

Greg Shatan:Adobe Connect on tablet does not put the list of hands in chronological order.

Michael Flemming:Aaah

Michael Flemming:Thats the difference.

Karen Day:Sorry, not sure why mic not working.

Karen Day:Next WT3 meeting will be 12/6

Vaibhav Aggarwal:ha ha ha

Cheryl Langdon-Orr (CLO):eeek!!

Steve Chan:The next full group meeting is scheduled for Monday, 5 Dec at 2000UTC

Karen Day:did an invite go out?

Steve Chan:The meeting is currently scheduled for 90 minutes - I just wanted to confirm.

Harold Arcos:For next full group meeting I will send my apologies in advance, I will attend IGF in México

kavouss arasteh:Do we really need 90 mints?

Steve Chan:@Karen, yes it did. Please let us know if you cannot find it.

Annebeth Lange, ccNSO:I am sorry, I have to leave. Goodbye.

Jorge Cancio (GAC Switzerland):Agree with Greg - objections and comments should also be possible in principle

Cheryl Langdon-Orr (CLO):that makes sense to me as well

Kiran Malancharuvil (IPC):You're still on

Vanda:+ 1 cheryl. makes sense

Vanda:based on our survey in this region, where majority would like to apply, a constant open opportunity to apply makes more sens for this region

Alexander Schubert:Can't be 100% FCFS - that would result in "gTLD-snapping" (as in domain catching in the 2nd round).

Jorge Cancio (GAC Switzerland):as these are scarce ressources and each string is unique, comments, objections and concurrent

applications should be made possible

Alexander Schubert:And some of the portfolio applicants are EXPERTS in "domain snapping"

Vanda:i need to leave to a meeting outside the office. sorry. see you next week.

Harold Arcos:See you @Vanda, take care

Martin Sutton:What rationale was used for the 2012 round? Was a continuous process considered? If so, is there any historic 'pros & cons' we can review?

Jorge Cancio (GAC Switzerland):good point Martin

Jorge Cancio (GAC Switzerland):if rounds were continuous and in predictable timeframes the potential problem would be mitigated

Harold Arcos:"if rounds were continuous and in predictable timeframes,,,,," +1

Kurt Pritz:@ Martin: Rationale for rounds: allow those not inside the ICANN circle a chance to catch up with those that are in the inner circle and could file the application on day 1; provide a tool for contention resolution; encourage applicants to carefully complete the application and not rush it out; to limit the number of applications in some way; the policy was to have a subsequent round in a year so as not to disadvantage those who did not make the first round

Christa Taylor:yes can hear you

Martin Sutton:@Kurt: thanks. So based on your first point re 'inner circle' it could be argued that there is still insufficient awareness of new gTLDs and the FCFS approach would disadvantage outsiders. The 2012 round certainly limited the processing and was not rushed :-). I'll ignore the last point....

Greg Shatan:Instead of "rounds", with space in between, we could have a new round open up when the previous one closed. Perhaps that's what meant by "continuous rounds."

kavouss arasteh:between roundsGrec, we need some interval

Phil Buckingham: + 1 Alan - this will never be perfect - however we long we take. There are many parts that are good / reusable.

Alan Greenberg:@Phil, yes, but if we have such a large number of issues in the future, we will have to rethink again.

Cheryl Langdon-Orr (CLO):Good to have got through this much Avri Thx...

Cheryl Langdon-Orr (CLO):Thx everyone talk again soon Bye

Katrin Ohlmer:bye, everybody.

Harold Arcos:Thanks everyone

Vaibhav Aggarwal:thanks team

Katrin Ohlmer:and thank you all of course.
