David Taylor: (06: 29) when we say there was no concerted effort to encourage them are we meaning that there was no concertion or insufficient? It probably states our view but wondering on the exact choice of words?

Jonathan Zuck: (07: 03) Drew and Laureen, are you ready to go forward?

Waudou: (07: 09) Yes, Target is the question

Waudou: (07: 35) Im not sure what is ARS

Dejan Djukic: (07: 36) i agree

Laureen Kapin 2: (07: 36) ICANN Accuracy Reporting System

Waudu: (07: 37) ok thanks. Agreed

Dejan Djukic: (07: 37) I'm not sure where green button is on mobile app

Laureen Kapin 2: (07: 37) ICANN WHOIS Accuracy Reporting System is described here: https://urldefense.proofpoint.com/v2/url?u=https-3A_whois.icann.org_en_whoisars&d=DglCaQ&c=FmY1u3Pjp6wrcrwl3mSVzgfkbPSS6sJms7xcl4I5cM&r=xeN1OHG3G0eZcGi0xsS5bbhCduioE11i4EKh7Jw9mxM&m=9G9S78dwKFxT_psZoFgapC0PTer0jMxTCc6w5uYVJPc&s=OzZ9a-Elnz-FEOJC-gunmJx1iKZffT4Aw-Ld68EWP5w&e=

Dejan Djukic: (07: 39) thank you Lauren!

Eleeza Agopian: (07: 43) All, I have to log out of the Adobe Connect room, but I will continue to be on the phone.

Drew: (07: 43) ciao Eleeza

Gao Mosweu (PC): (07: 44) Team, I have to step out for a bit. I may be back before end of the call..

Jamie Hedlund 2: (07: 51) One last point on identifying other sources of claims of whois inaccuracy: the contracted parties are not required to report this info and may refuse to do so. Getting this data from contracted parties or anyone else for that matter will be entirely dependent on the willingness of the party with the data.

Jamie Hedlund 2: (07: 55) @drew I agree -- not objecting to the recommendation

Calvin Browne: (07: 56) i've lost the place now

Megan Richards: (07: 57) I would make my comment again - and in writing again - about the term "ICANN organization" which I made on the call before Drew and Laureen arrived (and possibly Jamie). We should direct recommendations for action to ICANN staff or ICANN Board or ICANN supporting organisations or but for me ICANN organization is not clear or legally accurate. I know the internal discussions in ICANN and of course anyone can use whatever term they like informally but better for us to use the correct legal term to ensure that we know who is to do what

Jamie Hedlund 2: (07: 57) So right now, the only thing that is enforceable is the text in Spec. 11 3(b). Getting the framework enforceable will require amending the contract.

Pamela Smith: (08: 00) Note: Brian Aitchison and Margie Milam had to drop off. FYI.

Megan Richards: (08: 00) apologies but I have to leave too - will try to revise the docs tomorrow if possible

Jonathan Zuck: (08: 01) sorry we left you so little time

Jamie Hedlund 2: (08: 03) Apologies but I need to drop as well.

Jamie Hedlund 2: (08: 04) hahaha

Waudu: (08: 04) you could make the recommendations into Jonathan's format for later review

Calvin Browne: (08: 09) sounds like fun

Kaili Kan 2: (08: 10) Thanks to all. Bye!

Pamela Smith: (08: 10) Thank you for joining, everyone!
