

Expression Of Interest

I'm expressing my interest in the position of ALAC liaison to .MOBI.

Having progressed in DNS operations as an administrator of our national ccTLD (ASCII and IDN) and prepared the ATI (my company) application for ICANN accreditation as a gTLD registrar (accredited in 2015), I'm comfortable with ccTLDs and gTLDs management. I'm also leading the development of domain name industry project in my country. I have also participated in the national project about mobile development "M-Dev project".

I have more than seventeen years of experience in systems and network administration, software engineering, development, databases, requirements analysis, architecture design, implementation and management of Internet core network services.

I'm known for the ability to tackle difficult issues, analyze viable alternatives, and provide innovative solutions that stick to the project completion. Through my professional career, I was able to develop a recognized expertise in the growth and optimization of business processes, using a proactive approach to problem-solving. I have progressed from a step to another: operating, supervising and upgrading of Internet core network services.

I'm very passionate and feel I am qualified to be of an added value in this position.
