

# APRALO: 2017 Priorities

Satish Babu  
Chair, APRALO

**CELEBRATING DIVERSITY**

# APRALO in 2017

- 2017 is an important year for APRALO, as it is for different parts of ICANN
- APRALO has several important milestones coming up during the year:
  - At-Large Review and its implementation
  - APRALO's changed role in the post-Transition ICANN
  - APRALO General Assembly
- The following slides enumerate some of the priority areas for APRALO. This is work in progress and would evolve during the year

# Priority Areas

- Capacity Building
- Participation in ICANN Policy
- Community and Member engagement within APRALO
- Contributing to the Regional initiatives with Partners
- APRALO mentoring program for leadership development

# Programmes

- Webinars
- Schools of Internet Governance in the region (APSIG, APIGA, country SIGs)
- Capacity building sessions during ICANN meetings
- Participation in regional and global IG meetings
- Leadership development and recruitment (including Mentoring)
- Policy Document Development Pilot
- ALS survey on Policy and Capacity
- ALS metrics and their collection
- APRALO newsletter, Wiki, Social Media, mailing lists
- APRALO General Assembly

# APRALO General Assembly 2017

- Planned at Abu Dhabi during ICANN60 (October 2017)
- Tentative Program:
  - Organizational matters (30% time: ALS activities/constraints, RoP, At-Large Review, Leadership, Mentoring, NomCom update, ATLAS III, Capacity Building, Communications-Wiki/Social Media);
  - Policy (40%: Policy updates, ALS/Member participation in policy development)
  - Others (30%: Technical Updates, Regional and RALO Partnerships, Address by Chair/CEO/Board/ALAC Chair)

# AP Region and APRALO

- APRALO would like to engage better and closer with our partners within the Asia-Pacific region (ICANN APAC Hub, AprIGF, APNIC, APTLD, ISOC, and more...)
- We would be happy to consider any kind of collaboration with us and our members (ALSes and individuals)
- We look forward to contributing to developing empowered communities in the region, who would be able to effectively engage with international organizations and processes within Internet Governance

Thank You!
