Karen Day:Good afternoon everyone

Jeff Neuman:hello...

Jeff Neuman:Avri - can you turn up mic

Carlton Samuels:Howdy all

Christa Taylor:+1 Avri!

Michelle DeSmyter:Phil will have audio momentarily

Michelle DeSmyter:Phil Buckingham is now connected on the audio phone line

Rubens Kuhl:Emily also has her hand up.

Cheryl Langdon-Orr (CLO):thx Emily

Jeff Neuman:Emily - Thanks...i knew i would mess that up :)

Heather Forrest:Thanks, Emily

Jeff Neuman:@Heather, did I misstate anything?

Jeff Neuman:There have been some articles published recently about trying to move the process along (not to put anyone on the spot), but the best way to move us forward is to actively participate. :)

Jeff Neuman:The IDN discussion in WT4 last week was really helpful. I encourage everyone who doesnt fully understand IDN to listen to it.

Rubens Kuhl:"Everything you wanted to know about IDNs but was afraid to ask"

Emily Barabas:The CC2 Google document is available at https://urldefense.proofpoint.com/v2/url?u=https-3A__docs.google.com_document_d_1iZBCVEAJPBYEDg7jLsMHKkNczR-5Fb6-2DjH2Wl5eVH-2DWWM_edit-3Fusp-3Dsharing&d=DwICaQ&c=FmY1u3PJp6wrcrwll3mSVzgfkbPSS6sJms7xcl4I5cM&r=8_WhWIPqsLT6TmF1Zmyci866vcPSFO4VShFqESGe_5iHWGlBLwwwehFBfjrsjWv9&m=QZOUDxweggTDM5iIt6_a85Nk7GgbvhlJm09sR7KOECw&s=s66BIwQ2yAfTKPs9f30MciGkgT-ho15UIlCsAXJ24q8&e=

Emily Barabas:Everyone has scroll control of the PDF version in the center pod

Trang Nguyen:@Jeff: Should the EBERO program be factored into the RSP Programs discussion?

Trang Nguyen:ok

Rubens Kuhl:@Trang some people believe EBERO and COI can be dealt with outside of a formal RSP Program. Some do think it needs to be bundled.

Steve Coates:I had to reenter. Worked well the 2nd time.

Trang Nguyen:Thanks, Rubens. I guess it all depends on how the program (EBERO) is designed.

Susan Payne:now in, thanks

Emily Barabas:Apologies for the interruption Jeff

Emily Barabas:@Susan, great. Thanks for letting us know.

vanda scartezini:sorry to be late, in another call.

Phil Buckingham:Apologises for being late (and Michael 's absence) . Re WT2 Update ; Re background checks - as discussed on our call last week . Q to ICANN . Could WT2 be provided with the number of applicants that failed the background check @ Trang Does ICANN have this data ? can we discuss on email ?

Christa Taylor:Noted and will add for the next call

Trang Nguyen:@Phil, apologies I missed the last WT2 call due to a conflict. When I listened to the recording, it was not clear that the WT agreed on a formulation of question to ICANN org? If you and/or Michael could please send the WT's question to the list, we'd be happy to respond. As we have different data that we collect, it would be helpful when formulating the question to indicate the intent/purpose of the question so we can make sure that we provide the appropriate response.

Donna Austin, Neustar:I think understanding the audience is an important point.

Kavouss Arasteh:This group seems to be very popular as 42 persons attending

Dietmar Lenden - Valideus:yes

Phil Buckingham:Trang , many thanks . Will do .

Rubens Kuhl:@Phil and @Trang, possibly knowing also whether background checks at application time had different results from the ones at contract signing time is also an interesting indicator.

Emily Barabas:It does not appear that Denise is back in the AC room. If anyone is connected to her by Skype or other chat, it would be helpful to know if she is still having technical difficulties.

Kavouss Arasteh:Avri, there is some echo when you tak

avri doria:thanks Kavous. i am using a headet, so i am not

sure how i could be casing it.

Kavouss Arasteh:May the secretariat kindly include my question in the note and actions to betaken

Julie Hedlund:@Kavouss: I endeavored to capture it. If it is not sufficient please include additional text in this chat.

Julie Hedlund:@Kavouss: I apologize because it is hard for me to hear you clearly.

Emily Barabas:90 mins

Julie Hedlund:90 minutes

Rubens Kuhl:@Kavouss All gTLD registries are obliged by contract to serve all accredited registrars on a non-discriminatory basis. But for instance, if the country where registry is established blocks business with some countries, law of the landprevails over ICANN principles.

Jon Nevett:I just joined due to a conflict -- sorry I'm late

Phil Buckingham:@ kavouss. your question has been noted. WT2 will discuss this on our 2nd March call. re vertical integration . Thanks.

Heather Forrest:Apologies, all, I have to drop off now to attend another call. Have a good day!

Donna Austin, Neustar:Apologies all, I have to join another call.

Olga Cavalli:My apologies I must attend another meeting.

Kavouss Arasteh:Tom. we are the only one from GAC if I am not mistaken

Steve Chan:I will circulate an email to the group that details the meetings that are currently requested/tentatively scheduled.

Karen Day:@Steve is GAC Sub-Pro Session for bi-lateral discussion between the groups?

Rubens Kuhl:Jeff has been cut off.

Karen Day:Sat at 17:00

Jeff Neuman:Back in...thankanks

Jeff Neuman:thanks

Steve Chan:@Karen, I believe the intention would be that it is an open session, not just bilateral

Karen Day:Thanks, Steve

Kavouss Arasteh:But we need to mention that

Cheryl Langdon-Orr (CLO):your audio is starting to distort a lot Avri at least for me

   Steve Chan:FYI, Jeff and Avri volunteered for all of the groups :)
   Jeff Neuman:Someone is typing into the mic
   Kavouss Arasteh:What we mean by "Differenrt TLD"?
   Jeff Neuman:Categories
   Rubens Kuhl:Different types of TLDs, actually.
   Cheryl Langdon-Orr (CLO):see I thought we were trying to get others/ more people involved not just the existing Rapouteur list
   Rubens Kuhl:If a phone call is deemed necessary, I suggested asking WT leaders for a slot inside the most relevant WT close to the matter.
   Rubens Kuhl:(I suggest)
   Kavouss Arasteh:I have a point to raise under AOB
   Christa Taylor:There is overlap so might be difficult to have only one WT oversee the activities. Also, please consider our current restraining timelines
   Kavouss Arasteh:But it would good to have an executive summary of that Report to be made available to the enitre community
   Carlton Samuels:Bye all
   Cheryl Langdon-Orr (CLO):bye for now then.... talk again soon...
