Rubens Kuhl:May I suggest looking at CC2 questions while I try fixing audio ?

Terri Agnew:Don has joined on the telepone

avri doria 2:wht is the url for the questions

Rubens Kuhl:Ye s, thanks

Rubens Kuhl:Currently, AGB states that "Applicants must further demonstrate that they have made reasonable efforts to ensure that the encoded IDN string does not cause any rendering or operational problems. "

Rubens Kuhl:But the follow-up example is of a tone higher than UA, mentioniting mixed scripts.

Rubens Kuhl:From registry agreement:

Rubens Kuhl:"1.2 Technical Feasibility of String. While ICANN has encouraged and will continue to encourage universal acceptance of all top-level domain strings across the Internet, certain top-level domain strings may encounter difficulty in acceptance by ISPs and webhosters and/or validation by web applications. Registry Operator shall be responsible for ensuring to its satisfaction the technical feasibility of the TLD string prior to entering into this Agreement."

Terri Agnew:@Quoc ,we are unable to hear you and your mic is open

Quoc Pham:Hi Terri, my mic is on as far as I can tell

Rubens Kuhl:We do hear you.

avri doria 2:we are all making excuses for Adob, but perhaps adobe is the problem.

Quoc Pham:lol

Rubens Kuhl:Thanks Don!

Rubens Kuhl:It would be better.

Rubens Kuhl:Audio here is still uncertain.

Rubens Kuhl:After people's comments the questions are not as fluid as they wre, but it reflects diversitiy better. So I don't think we need to change the questions text, just recognize this "feature".

Rubens Kuhl:Interesting, 2012 round adoted effective testing for technical capability, PDT.

Rubens Kuhl:Or from Verisign.

Rubens Kuhl:Avri has her hand raised.

Rubens Kuhl:Avri, the 2012+ namecollisions is indeed in our charter, I believe.

avri doria 2:as evidence, but not necessarily for solutions

Rubens Kuhl:But the prior to 2012 gTLDs is possibly an addition for sake of completeness.

avri doria 2:time is really running away from us

Rubens Kuhl:Will do.

Julie Hedlund:Yes, sorry to be annoying, but we are running 5 minutes over.

Julie Hedlund:@CLO: sorry to be a bother :-)

Terri Agnew:next call: New gTLD Subsequent Procedures Sub Team – Track 4 – IDNs/Technical & Operations will take place on Monday, 06 March 2017 at 15:00 UTC for 60 minutes.

Julie Hedlund:Bye all!
