

## FY18 COMMUNITY REQUEST FORM

All questions and completed forms should be sent to [controller@icann.org](mailto:controller@icann.org).  
Please remember that the deadline for FY18 Budget consideration is **30 January 2017**.

REQUEST INFORMATION		
<b>Title of Proposed Activity</b>		
APRICOT, Kathmandu, Nepal, Feb 2018 – to enable at least 3 members from the APRALO Leadership Team to attend the AP* and APRICOT meetings in Kathmandu, Nepal, in Feb 2018 and future AP* and APRICOT meetings.		
<b>Community Requestor Name</b>	<b>Chair</b>	
Maureen Hilyard, APRALO ALAC	Satish Babu, APRALO Chair	
<b>ICANN Staff Community Liaison</b>		
Silvia Vivanco		

REQUEST DESCRIPTION
<b>1. Activity: Please describe your proposed activity in detail</b>
<p>This proposal is to enable the APRALO leadership team to first of all request attendance of the AP* and APRICOT in Nepal in 2018, but secondly to request that this attendance be a recurring activity, in order for APRALO to continue to maintain the positive and productive relationships that the leadership team has built up over the years within the regional AP* community.</p> <p>AP* is a gathering of internet related organizations from the Asia Pacific region that meets in between the TRAINING AND EDUCATION programmes offered by APNIC, APIA and other organizations, and the APRICOT meeting itself which culminates in APNIC's Annual General Meeting. The AP* meeting also gives the regional groups an opportunity not only to formally meet with the others but also to share information and to encourage greater coordination and collaboration. AP* includes: Asia Pacific Networking Group (APNG); Asia Pacific Network Information Center (APNIC); Asia Pacific Top Level Domain Name Forum (APTLD); Asia &amp; Pacific Internet Association (APIA); Asia Pacific Advanced Network Consortium (APAN); Asian, Australasian and Pacific Islands Regional At-Large Organization (APRALO); Country Code Top Level (ccTLD) Domain Operators; Dot Asia; Internet Society (ISOC); and Internet Corporation for Assigned Names and Numbers (ICANN – represented by the APAC Hub). AP* also meets as part of APNIC's second conference within the Asia Pacific region.</p> <p>APRALO has become a regular participant at APRICOT after Satish and Maureen attended the meeting held in Fukuoka, Japan in 2015, as a CROPP event, This first event was focused on outreach, familiarizing ourselves with the APRICOT context and generally making ourselves known among other APRICOT participants. This relationship was enhanced when 6 APRALO team members (Siranush, Maureen, Lianna, Kaili, Satish and Ali, in a mix of CROPP, APTLD, ISC and self-funding) attended APRICOT2016 in Auckland, firstly to participate in the APTLD meeting where Siranush updated the ccTLD meeting about APRALO; then the AP* meeting where Maureen was nominated to Chair the next AP* meeting in Bangladesh (later moved to Sri Lanka); and then the APRICOT conference – during which we were all able to meet together to prepare our FY17 Strategic Plan, as</p>

# FY18 COMMUNITY REQUEST FORM

well as to connect with “down-under” ALS members and other ICANN related participants including Board members and other leaders from the ccNSO, GNSO and GAC.

At the Sri Lanka AP\* meeting that Maureen co-chaired, Kaili Kan gave a well-received presentation on the status of internet development in China. The Leadership Team is currently preparing to attend the APRICOT2017 meeting in Ho Chi Minh City using CROPP initially but also self-funding to take advantage of the full AP\* and APRICOT programme as well as its networking and engagement opportunities. All members of the team (Satish, Maureen and Ali) have been invited to participate in various sections of the programme during this week.

Comment [AG1]: Date?

APRALO has greatly benefited from attending the AP\* and APRICOT meetings. The regular contact with other AP\* organizations throughout the weeks of the APRICOT meetings has helped us to build a profile for APRALO which is now acknowledged within the wider regional internet related community. Satish and Maureen have also enhanced this relationship by involving ourselves further on other AP committees, for example the APriGF and the APSIG. Our attendance at APRICOT also enables us to give support for APNIC, APTLD and Dot Asia who also hold meetings at APRICOT, as our MOU partners, and we hope to create more partnerships over time.

APRALO would like to make this a regular opportunity to meet with other regional Internet-related organizations, especially those directly involved with Names and Numbers but more so to build relationships that will provide beneficial results for APRALO, for At-Large and ultimately ICANN.

**2. Type of Activity: e.g. Outreach - Education/training - Travel support - Research/Study - Meetings - Other**

TRAVEL SUPPORT, EDUCATION & TRAINING OPPORTUNITIES, MEETINGS, OUTREACH to attend meetings of various regional organizations at one event, and to participate as part of a wider coordinated regional body to share information with each other.

**3. Proposed Timeline/Schedule: e.g. one time activity, recurring activity**

The Nepal meeting is a one-time activity, but we would like to establish this event as a recurring activity to retain the profile we have been working hard to build over our attendances at regional meetings involving the AP\* community and to increase interest among other organizations about APRALO and ICANN as partners.

## REQUEST OBJECTIVES

**1. Strategic Alignment. Which area of ICANN's Strategic Plan does this request support?**

1.2 Taking ICANN to the world by way of a balanced and proactive approach to regional engagement with stakeholders. The invitations we have received to attend this and other networking meetings within the region are the result of successful planning, implementation and reporting of APRALO engagement strategies

**2. Demographics. What audience(s), in which geographies, does your request target?**

The APRALO team has been focusing on the wider Asia Pacific region through its attendance at the meetings and conferences of APRICOT and other AP\* organizations. We are fortunate that through these engagements, we have been able to take the APRALO messages to areas of the AP region that have little knowledge of ICANN or APRALO and how they can become involved. The ultimate audience is the grassroots end-users, but we realise that if we are to get access to the countries themselves, we can only do this through our contact with these organizations and the meetings they hold within some of the more distanced and isolated areas of AP.

# FY18 COMMUNITY REQUEST FORM

**3. Deliverables. What are the desired outcomes of your proposed activity?**

- Participating in a regional event to maintain the profile of APRALO leaders within the wider AP\* community which gathers each year at APRICOT
- Increasing opportunities for networking and sharing of information among AP\* organizations
- Increasing understanding by other organizations about APRALO and our activities as well as our own understanding about other AP\* organizations and how our APRALO ALS might benefit from contact with these groups
- Enhancing others' engagement with APRALO and also with ICANN
- Identifying possible additions—individuals and potential ALSes—to the APRALO community

**4. Metrics. What measurements will you use to determine whether your activity achieves its desired outcomes?**

- All three APRALO leaders present in at least one session each, but also to be actively involved to help raise awareness about APRALO and ALAC in at least 2 other sessions each.
- Target is to introduce ourselves to at least 2-3 new contacts as potential active members of At-Large
- Wear our "Ask us about APRALO" badges and distribute at least 20 APRALO brochures each to people we have not met before.

## RESOURCE PLANNING – INCREMENTAL TO ACCOMMODATE THIS REQUEST

**Staff Support Needed (not including subject matter expertise):**

Description	Timeline	Assumptions	Costs basis or parameters	Additional Comments
APRALO brochures				
Travel Support				

**Subject Matter Expert Support:**

**Technology Support: (telephone, Adobe Connect, web streaming, etc.)**

**Language Services Support:**

## FY18 COMMUNITY REQUEST FORM

**Other:**

**Travel Support:**

Travel support is requested for 3 members of the APRALO Leadership Team who will participate in the AP\* and APRICOT events to promote APRALO and ALAC activities at the one day AP\* event, plus the 4 day APRICOT conference.

**Potential/planned Sponsorship Contribution:**

We would seek sponsorship of the conference fee for the leaders from APNIC. Attendance by other members of the leadership team or other APRALO members can be achieved through an APRICOT Fellowship or CROPP application.

## FY18COMMUNITY REQUEST FORM

All questions and completed forms should be sent to [controller@icann.org](mailto:controller@icann.org).  
Please remember that the deadline for FY18 Budget consideration is **30January2017**.

REQUEST INFORMATION		
<b>Title of Proposed Activity</b>		
School of Internet Governance		
<b>Community Requestor Name</b>	<b>Chair</b>	
Lianna Galstyan – ISOC AM ALS	Satish Babu, APRALO Chair	
<b>ICANN Staff Community Liaison</b>		
Silvia Vivanco		

REQUEST DESCRIPTION
<b>1. Activity: Please describe your proposed activity in detail</b>
To organize a course on Internet Governance with program including the IG infrastructure, Multistakeholder model, IGF mandate, ICANN and other I* organizations, their roles and activities, Human Rights and Cybersecurity issues, etc. The course is envisaged especially for students to provide them with solid knowledge of current developments in Internet governance ecosystem.
<b>2. Type of Activity: e.g. Outreach -Education/training - Travel support - Research/Study - Meetings - Other</b>
Capacity Building
<b>3. Proposed Timeline/Schedule: e.g. one time activity, recurring activity</b>
The course will last for one week.

REQUEST OBJECTIVES
<b>1. Strategic Alignment. Which area of ICANN's Strategic Plan does this request support?</b>
The objective is in line with ICANN Strategic Objective "Develop and implement a global public interest framework bounded by ICANN's mission".
<b>2. Demographics. What audience(s), in which geographies, does your request target?</b>
The program is targeted for students from different universities across Armenia.
<b>3. Deliverables. What are the desired outcomes of your proposed activity?</b>
With this program we expect to make capacity building, educate young generation of what is Internet governance, what is multistakeholder model, to further involve them in national/regional/global IG Forums and discussions.

Comment [AG1]: Overall, this proposal seems a bit thin.

# FY18COMMUNITY REQUEST FORM

**4. Metrics. What measurements will you use to determine whether your activity achieves its desired outcomes?**

As we organize annual national IGF, we can invite all participants of this program to join and take part in the process of national IGF starting from suggesting topics of discussion, to involving them into organizing teams, speakers list and further help them at the regional and global fora.

## RESOURCE PLANNING – INCREMENTAL TO ACCOMMODATE THIS REQUEST

### Staff Support Needed (not including subject matter expertise):

Description	Timeline	Assumptions	Costs basis or parameters	Additional Comments

### Subject Matter Expert Support:

Apart from local experts, we would like to include international subject matter expert(s) to represent the international overview and perspectives of Internet governance topics.  
 As Armenia is in the midst of Asia and Europe, we would like to include experts both from Asia and from European countries. In this role we expect to invite APRALO/EURALO Chairs.

### Technology Support:(telephone, Adobe Connect, web streaming, etc.)

ISOC Armenia will use its technology resources. For international remote connection and web streaming we plan to use zoom.us support.

### Language Services Support:

The program will be in Armenian which is the official language of Armenia. Therefore, we will need an English-Armenian interpreter for providing proper understanding of the international expert's participation in this program.

### Other:

### Travel Support:

Travel support is needed for the subject matter expert(s).

**Comment [AG2]:** Under Subject Matter Experts it says that two RALO chairs will be invited and presumably funded. Here the (s) makes it less clear how many people are being requested.

### Potential/planned Sponsorship Contribution:

**FY18COMMUNITY REQUEST FORM**

## FY18COMMUNITY REQUEST FORM

All questions and completed forms should be sent to [controller@icann.org](mailto:controller@icann.org).  
Please remember that the deadline for FY18 Budget consideration is **30January2017**.

REQUEST INFORMATION		
<b>Title of Proposed Activity</b>		
Second India School of Internet Governance		
<b>Community Requestor Name</b>	<b>Chair</b>	
ISOC-TRV and ISOC-Delhi	Satish Babu, APRALO Chair	
<b>ICANN Staff Community Liaison</b>		
Silvia Vivanco		

**Comment [AG1]:** Seems more of a GSE project than At-Large (as was I believe the case for the first inSIG).

REQUEST DESCRIPTION
<b>1. Activity: Please describe your proposed activity in detail</b>
<p>This proposal is an organizing the Second India School of Internet Governance (inSIG 2017), tentatively just before ICANN60 meeting at Abu Dhabi.</p> <p>InSIG2016, the first India School of Internet Governance (<a href="http://insig.in">http://insig.in</a>) was a very successful initiative organized just prior to ICANN56 at Hyderabad. Organized by two APRALO ALSes—ISOC-TRV and ISOC-Delhi—at the Indian Institute of Information Technology, Hyderabad, (IIIT-H), the programme was supported by Government of India, ICANN, ISOC, APNIC and APSIG. The speakers for the programme were sourced largely from the ICANN60 community and included Members of the ICANN Board as well as eminent experts. There were around 45 students, including 15 international students, and the community feedback as well as formal feedback for the programme indicated a high degree of satisfaction.</p> <p>The 2017 edition of inSIG also follows the basic model from 2016 (a mix of international and Indian participants, speakers from the IG community (particularly ICANN Board members and AC/SO leaders), and a 3-day programme at an eminent academic institution.</p> <p>Compared to inSIG2016, the costs are bound to be higher as travel costs of speakers need to be paid. The number of speakers will be cut down from the figure of 25 to about 15, with some of them handling multiple sessions. Additional funding needs to be raised from existing partners to cover travel and accommodation costs (which was largely covered by ICANN60 in inSIG2016).</p>
<b>2. Type of Activity: e.g. Outreach -Education/training - Travel support - Research/Study - Meetings - Other</b>
Capacity Building in Internet Governance
<b>3. Proposed Timeline/Schedule: e.g. one time activity, recurring activity</b>
The programme will be for 3 days for about 45 participants, and will roughly follow the structure of inSIG 2016 (available at <a href="http://insig.in">http://insig.in</a> ).

# FY18COMMUNITY REQUEST FORM

## REQUEST OBJECTIVES

### 1. *Strategic Alignment.* Which area of ICANN's Strategic Plan does this request support?

1. Evolve and further internationalize and regionalize ICANN's implementation of the multistakeholder approach.

5. Develop and implement a global public responsibility framework.

### 2. *Demographics.* What audience(s), in which geographies, does your request target?

The programme targets about 25-30 participants from India and about 15 international participants. Most of the participants are young people interested in the domain of Internet Governance, but there is no age limit for participants. Priority will be given to women.

### 3. *Deliverables.* What are the desired outcomes of your proposed activity?

The main objective of inSIG2017 is to provide background information to participants on the history, current status of the Multistakeholder Model; the different organizations in the Internet Governance ecosystem and their roles; and the recent IG processes and issues, including the IANA Transition and ICANN's new structure. It is expected that the programme will equip participants to effectively participate in the Internet Governance processes as represented by organizations/processes such as ICANN, IGF, ISOC and IETF.

Apart from the classroom sessions, the participants would also get an opportunity to interact and network with each other and the resource persons, both domestic and international, which would also add value.

### 4. *Metrics.* What measurements will you use to determine whether your activity achieves its desired outcomes?

As in inSIG2016, the basic measurements will include formal and informal feedback collected from multiple sources:

- Direct feedback collected during sessions (Google Forms-based)
- Tweets
- WhatsApp group messages
- Community Feedback in ICANN forums
- Feedback from speakers

## RESOURCE PLANNING – INCREMENTAL TO ACCOMMODATE THIS REQUEST

### Staff Support Needed (not including subject matter expertise):

Description	Timeline	Assumptions	Costs basis or parameters	Additional Comments

### Subject Matter Expert Support:

## FY18COMMUNITY REQUEST FORM

<p>We would need support from eminent ICANN leaders including:</p> <ul style="list-style-type: none"><li>- Board members</li><li>- AC/SO Leaders</li><li>- Resources from APAC Hub</li></ul>
<b>Technology Support:(telephone, Adobe Connect, web streaming, etc.)</b>
<p>To be locally sourced or sourced from ICANN community:</p> <ul style="list-style-type: none"><li>- Photographs</li><li>- Twitter, WhatsApp</li><li>- Videos</li></ul>
<b>Language Services Support:</b>
<p>Not required.</p>
<b>Other:</b>
<p>As in the case of inSIG 2016, ISOC-TRV will act as the legal holder of this project.</p>
<b>Travel Support:</b>
<p>Travel support is required for:</p> <ul style="list-style-type: none"><li>- 2-3 Board Members (depending on availability)</li><li>- ALAC Chair and 1-2 ALAC Leaders</li><li>- Other community leaders (NCUC/NCSG, GNSO/ccNSO)</li></ul>
<b>Potential/planned Sponsorship Contribution:</b>
<p>Besides ICANN, the programme is expected to be supported by:</p> <ul style="list-style-type: none"><li>- Government of India</li><li>- ISOC</li><li>- APNIC</li><li>- APSIG</li></ul>

# FY18 COMMUNITY REQUEST FORM

All questions and completed forms should be sent to [controller@icann.org](mailto:controller@icann.org).  
 Please remember that the deadline for FY18 Budget consideration is **30 January 2017**.

REQUEST INFORMATION	
<b>Title of Proposed Activity</b>	
APIGA Leadership Training for up and coming APRALO Leaders to build community ambassadors and mentors among our ALS community	
<b>Community Requestor Name</b>	<b>Chair</b>
Maureen Hilyard, ALAC, APRALO	Satish Babu, APRALO Chair
<b>ICANN Staff Community Liaison</b>	
Silvia Vivanco	

REQUEST DESCRIPTION
<b>1. Activity: Please describe your proposed activity in detail</b>
<p>This request is to enable potential APRALO ambassadors from within the APRALO ranks to participate in the Asia Pacific Internet Governance Academy, to enhance the potential for local community, as well as APRALO, outreach capacity regionally.</p> <p>The first academy was organized jointly by the Korea Internet and Security Agency (KISA) and ICANN, in partnership with regional organizations such as the Asia Pacific Network Information Center (APNIC), Internet Society (ISOC), DotAsia organization, and other members of the Asia Pacific Internet community. Many of these APIGA partners are already partners of APRALO. The program aims at nurturing the next generation of Internet leaders to be the region's voice and preparing them to participate in the global multistakeholder Internet governance ecosystem.</p>
<b>2. Type of Activity: e.g. Outreach - Education/training - Travel support - Research/Study - Meetings - Other</b>
Education and Training, and Travel support.
<b>3. Proposed Timeline/Schedule: e.g. one time activity, recurring activity</b>
It would be envisaged that APRALO would be able to make this a recurring activity to offer a scholarship for high level participants in APRALO and At-Large activities to attend the APIGA Leadership Academy

**Comment [AG1]:** It is not clear exactly what is being requested.

It starts implying that we are asking for support to send several upcoming leaders to the training workshop. But then under demographics, it says that the people will be selected by the APIGA organizers. And no travel or other support is requested.

REQUEST OBJECTIVES
<b>1. Strategic Alignment. Which area of ICANN's Strategic Plan does this request support?</b>
3.3 – To build the leadership potential in both knowledge and expertise within ICANN's globally diverse stakeholder community and to encourage their active contribution both within ICANN as well as within their own communities

# FY18 COMMUNITY REQUEST FORM

<b>2. Demographics. What audience(s), in which geographies, does your request target?</b>
Up and coming leadership potential within APRALO as identified by their active participation within APRALO and At-Large Activities. It would be desirable that the APIGA organisers consult with the leadership team to ensure that the most deserving applicants are selected
<b>3. Deliverables. What are the desired outcomes of your proposed activity?</b>
Greater leadership development within APRALO to enhance the potential for internal organizational strengthening and development as well as the potential for greater technical and thought leadership outreach within their local communities to draw more people into the decision-making role of At-Large
<b>4. Metrics. What measurements will you use to determine whether your activity achieves its desired outcomes?</b>
<ul style="list-style-type: none"> <li>At least 3 participants from APRALO are selected to attend the annual APIGA Leadership Course</li> <li>Each participant will report back to the APRALO community at the conclusion of the course about the benefits of the course for themselves, their home community and for At-Large</li> <li>Each participant must engage in at least one other At-large WG activity as an active participant as a result of attending the course</li> <li>Each participant must become a mentor for another APRALO ALS member following the course</li> </ul>

## FY18 COMMUNITY REQUEST FORM

All questions and completed forms should be sent to [controller@icann.org](mailto:controller@icann.org).  
Please remember that the deadline for FY18 Budget consideration is **30 January 2017**.

REQUEST INFORMATION	
<b>Title of Proposed Activity</b>	
APRALO Leadership Team participation in the Twelfth Annual IGF Meeting scheduled to take place in Geneva City, Switzerland, in December 18-21, 2017	
<b>Community Requestor Name</b>	<b>Chair</b>
Ali AIMeshal	Satish Babu
<b>ICANN Staff Community Liaison</b>	
Heidi Ullrich	

REQUEST DESCRIPTION
<b>1. Activity: Please describe your proposed activity in detail</b>
<p>Continuing further with the successful previous IGF initiatives, the APRALO Leadership Team proposes participation of 3 members of its Leadership Team at the 2017 IGF.</p> <p>The specific activities that would be carried out by the three-member Outreach Delegation, jointly and individually, are:</p> <ul style="list-style-type: none"><li>• Participate as APRALO resource persons in different workshops. For this, the team members would be registering themselves as Resource Persons in the IGF Resource Persons' Roster.</li><li>• Collaborate and support activities of other ALAC Members</li><li>• Explore, and if possible, plan and execute an At-Large Outreach event jointly with other RALOs present at Geneva and local ALSes, if any, with Universities and other institutions. The objective of such an outreach process would be to introduce At-Large (and thereby, ICANN), and to stimulate growth and participation of local end-user communities in At-Large activities.</li><li>• Although there are uncertainties arising out of the approval process of Workshops at IGF, going by past history it is likely that there would be workshops being organized by APRALO members (there were two such workshops last year and one the previous year). The Outreach Delegation would support these workshops.</li></ul>

## FY18 COMMUNITY REQUEST FORM

- Assuming we have other RALO representatives available, consider creating an At-Large 'corner' in the ICANN booth to provide information on ALAC/At-Large, its role, reach and diversity to visitors
- As in the case of 2016, hold talks with AP regional organizations for specific regional collaborative programmes

The Twelfth Meeting of the annual Internet Governance Forum (IGF), under the revised mandate, is scheduled to take place in Geneva City, **Switzerland**, in December 2017. IGF is an open and public forum that brings interested participants from various stakeholder groups as equals, under a multistakeholder process. IGF focuses on public policy issues relating to the Internet.

IGF's open format allows anyone interested in Internet policy to participate. Consequently, it presents a unique opportunity for outreach as well as for networking and interacting with several global communities that are otherwise difficult to contact independently.

Several members of APRALO—including some of the members of the APRALO Leadership Team—have been actively participating in IGF over the years, and have been organizing workshops on different IG-related topics.

APRALO was able to send an official delegation to IGF 2015 held at João Pessoa, Brazil and IGF 2016 in Mexico with ICANN budget support. The initiative was very successful, and the APRALO team was able to extensively interact with members of APRALO, members of the Asia-Pacific Internet Governance community, members of other RALOs, ICANN community members, and the larger IGF Community. The APRALO team also supported the APRALO members in organizing their workshops.

As of now, neither the themes for IGF 2017 nor the Call for Proposals have been published. APRALO had discussed a plan to propose a Workshops, as soon as the call for proposals is announced.

**2. Type of Activity:** e.g. Outreach - Education/training - Travel support - Research/Study - Meetings - Other

The proposal seeks financial support for travel, accommodation, per diem and visa fees as applicable, for 3 members of the APRALO Leadership team for participation at IGF 2017.

**3. Proposed Timeline/Schedule:** e.g. one time activity, recurring activity

One time activity, in Geneva City, **Switzerland**, in December 2017

# FY18 COMMUNITY REQUEST FORM

## REQUEST OBJECTIVES

### 1. *Strategic Alignment.* Which area of ICANN's Strategic Plan does this request support?

4.3 Enhance the visibility, credibility and trust in the multistakeholder model in general and for ICANN in particular.

APRALO's participation in a non-ICANN forum such as IGF demonstrates the vibrancy of the ICANN's multistakeholder model, insofar as it empowers constituency organizations to operate independently in the domain of Internet Governance. In addition, the initiative will:

- Demonstrate a long-term commitment of APRALO and ICANN in the IGF process and the IGF Community
- Raise the awareness of ICANN and APRALO and their activities and positions with the IGF participants through organizing workshops as well as by participating in workshops
- Raise awareness about ICANN At-Large, and networking with potential At-Large members from the Asia- Pacific to encourage them to become members of the ICANN At-Large community
- Help to engage with existing organizations and networks in Asia-Pacific in order to explore them becoming ALSes in Asia Pacific and Australia region

### 2. *Demographics.* What audience(s), in which geographies, does your request target?

The proposal targets the global Internet Governance community for networking, and at the same time targets the Asia-Pacific community for interventions including formation of new ALSes from the broader Internet Governance community from Asia-Pacific that participates at the IGF.

### 3. *Deliverables.* What are the desired outcomes of your proposed activity?

The proposal expects the participants to:

- Project the Asia-Pacific Community perspectives at IGF 2017 in general, and specifically in workshops related to topics of relevance for Asia-Pacific, including Digital Divide, Access, Diversity, Multilingualism, Universal Acceptance, Disability, Net Neutrality and Child Protection.
- Provide enhanced visibility to ICANN's At-Large community in general, and APRALO in particular
- Interact with members of the Asia-Pacific Internet Community, particularly, sister organizations such as APNIC, APTLD, APriGF, ISOC and .Asia.
- Draw up new programmes in consultation with other community members and organizations
- Provide support to ICANN's presence at IGF 2017 and enhance visibility & trust of APRALO, At-Large and ICANN

The two-member delegation to IGF 2016 participated actively in several workshop sessions in addition to workshops organized by APRALO members. For 2017, APRALO's proposed 3-member delegation will increase its participation in workshops as well as other fore-mentioned activities. ICANN's visibility.

**4. Metrics. What measurements will you use to determine whether your activity achieves its desired outcomes?**

- Identifiable increased involvement from Asia Pacific stakeholders in Internet Governance in At-Large and other stakeholder groups within ICANN as a result of contact made at the IGF
- Distribution of brochures and other collateral to IGF Members = resulting in increased interest noted by registered applications as individual (or ALS) members at the IGF
- Active participation and high-quality discussions at the workshops organized by APRALO or its members at IGF – A record is kept of interventions by ICANN-Non ICANN, men-women, youth-older participants, to indicate general interest in APRALO session
- Enhanced recognition of APRALO and other ICANN Constituencies within the IGF participants demonstrated by log of IGF participants leaders interact with at the At-Large Booth.
