#### ... Worki 18 COL ... Veekly Meeting 8. • ••• .....

Jan. 23, 2015

#### Agenda

- The appointment of the "Lead Registrar Representative".
- Background overview of Whois Address Cross-field Validation during the 2013RAA negotiation.
- Finalizing the High Level Principles of the WG.
- Discussion of the proposed work schedule according last meeting.

### Proposed High Level Principles of the WG

- 1. We should agree on an acceptable goal for Error Rate.
- We should agree on the sanctions for non-conforming domain names. (Instead of suspension/deletion, perhaps some sort of notification/alert scheme.)
- 3. We should "Start Small"
  - a) UPU Addressing S42 standard compliant countries: <u>http://www.upu.int/en/activities/addressing/s42-standard/compliant-</u> <u>countries.html</u>
  - b) We should not penalize geographies/regions which have non-standard formats.
- 4. We should understand cost implications, and how this will affect registrants.
- 5. We should have a manageable implementation/enforcement plan.
- 6. We should ensure that these methods do not run afoul of existing patents.

## **Proposed Working Schedule**

Name	Jan	F	Feb	Mar	Apr	Mav	Jun	2015 Jul	Aua	Sep
Finalizing the task list of the WG		7							, 109	COP
Work on the issue of which countries' addresses should be verified to what level			<b>P</b> <							
WG Member valunteer explore the previous experiences of address validation of other industries and community members										
Work on the issue of data format (ASCII, Non-ASCII/convertion, data field sequence)
