REQUEST INFORMATION

Title of Proposed Activity	
APIGA Leadership Training for up and coming APRALO Leaders to build community ambassadors and mentors among our ALS community	
Community Requestor Name	**Chair**
Maureen Hilyard, ALAC, APRALO	Satish Babu, APRALO Chair
ICANN Staff Community Liaison	
Silvia Vivanco/Heidi Ullrich	

REQUEST DESCRIPTION

1. Activity: **Please describe your proposed activity in detail**
This request is to seek funding to enable at least TWO ambassadors, selected from within the APRALO ranks, to participate in the Asia Pacific Internet Governance Academy, in order to enhance leadership capacity within APRALO as well as increase potential for informed outreach in the area of Internet Governance related to the work of ICANN within their area of the AP region.   This event was developed and successfully coordinated by the APAC Hub last year. The APAC Team independently invited members of the AP community. The APRALO Leadership Team would like an opportunity to suggest their own candidates. If this requires additional funding to make this happen, then the ALT would request that funding be made available to enable two additional active ALS members to this event. This would be perfect for the leadership pathway APRALO has proposed to prepare its Next Gen APRALO Leaders.   The first academy was organized jointly by the Korea Internet and Security Agency (KISA) and ICANN, in partnership with regional organizations such as the Asia Pacific Network Information Center (APNIC), Internet Society (ISOC), DotAsia organization, and other members of the Asia Pacific Internet community. Many of these APIGA partners are already partners of APRALO. The program aims at nurturing the next generation of Internet leaders to be the region's voice and preparing them to participate in the global multistakeholder Internet governance ecosystem.

2. Type of Activity: **e.g. Outreach - Education/training - Travel support - Research/Study - Meetings - Other**
Education and Training, and Travel support.

3. Proposed Timeline/Schedule: **e.g. one time activity, recurring activity**
It would be envisaged that APRALO would be able to make this a recurring activity to offer a scholarship for high level participants in APRALO and At-Large activities to attend the APIGA Leadership Academy

REQUEST OBJECTIVES

1. *Strategic Alignment.* Which area of ICANN's Strategic Plan does this request support?

3.3 – To build the leadership potential in both knowledge and expertise within ICANN's globally diverse stakeholder community and to encourage their active contribution both within ICANN as well as within their own communities

2. *Demographics.* What audience(s), in which geographies, does your request target?

Up and coming leadership potential within APRALO as identified by their active participation within APRALO and At-Large Activities. The APRALO LT would consult with APIGA organisers to ensure that not only are the most deserving applicants selected, but that they will fit into the intended criteria of YOUTH leaders from the region selected for the APIGA programme.

APRALO has been working on identifying some great young people from among out ALSes as potential leaders and would like to give them the opportunity through the APRALO system to participate in the IGA. These are young people we would like to reward for their already active engagement with our internet governance work in APRALO/At-Large, to encourage and support their participation within a wider community of internet users, and to maintain their continued interest in the work of APRALO.

3. *Deliverables.* What are the desired outcomes of your proposed activity?

Greater leadership development within APRALO to enhance the potential for internal organizational strengthening and development as well as the potential for greater technical and thought leadership outreach within their local communities to draw more people into the decision-making role of At-Large.

An in-house mentorship programme building on the leadership capacity developed from this type of training opportunity for our youth leaders.

Enhanced involvement by our youth leaders in APRALO events and activities.

A full report on the activities in which APRALO participants' have been involved and the potential impact on future APRALO leadership will be prepared as a followup to this event.

4. *Metrics.* What measurements will you use to determine whether your activity achieves its desired outcomes?

- At least 2 participants from APRALO are selected to attend the annual APIGA Leadership Course – the main criterion for selection is current active engagement in an At-Large activity (working group member / penholder, APRALO meeting presenter, etc)
- Each participant will report back to the APRALO community at the conclusion of the course about the benefits of the course for themselves, their home community and for At-Large
- Each participant must engage in at least one other At-large WG activity as an active participant as a result of attending the course
- Each participant must become a mentor for another APRALO ALS member following the course

RESOURCE PLANNING – INCREMENTAL TO ACCOMMODATE THIS REQUEST

Staff Support Needed (not including subject matter expertise):

FY18 COMMUNITY REQUEST FORM

Description	Timeline	Assumptions	Costs basis or parameters	Additional Comments

Subject Matter Expert Support:

N/A
