CCWG Auction Proceeds

Charter Questions

11. Should a review mechanism be put in place to address possible adjustments to the framework following the completion of the CCWGs work and implementation of the framework should changes occur that affect the original recommendations (for example, changes to legal and fiduciary requirements and/or changes to ICANN's mission)?

- a. What are the specific measures of success that should be reported upon?
 - b. What are the criteria and mechanisms for measuring success and performance?
- c. What level of evaluation and reporting should be implemented to keep the community informed about how the funds are ultimately used?
- 9. What is the governance framework that should be followed to guide distribution of the proceeds? The issues addressed by a governance framework could include (but does not have to be limited to):

- 8. What aspects should be considered to determine an appropriate level of overhead that supports the principles outlined in this charter?
- 7. Should ICANN oversee the solicitation and evaluation of proposals, or delegate to or coordinate with another entity, including, for example, a foundation created for this purpose?
- 6. Should any priority or preference be given to organizations from developing economies, projects implemented in such regions and/or under represented groups?
- 5. What conflict of interest provisions and procedures need to be put in place as part of this framework for fund allocations?
 - 4. What aspects should be considered to define a timeframe, if any, for the funds allocation mechanism to operate as well as the disbursements of funds? E.g. The timeframe for the operation of this new mechanism may provide the opportunity for long term support, or for funding to be released in tranches linked to milestone achievements, single or multiple disbursements.

1. What framework (structure, process and/or partnership) should be designed and implemented to allow for the disbursement of new gTLD Auction Proceeds, taking into account the legal and fiduciary constraints outlined above as well as the existing memo on legal and fiduciary principles? As many details as possible should be provided, including any implementation guidance the CCWG may have in relation to the establishment of this framework as well as criteria for the selection / ranking of potential funding requests.

2. As part of this framework, what will be the limitations of fund allocation, factoring in that the funds need to be used in line with ICANN's mission while at the same time recognising the diversity of communities that ICANN serves? This should include recommendations on how to assess whether the proposed use is aligned with ICANN's Mission. Furthermore consideration is expected to be given to what safeguards, if any, need to be in place.

- 3. What safeguards are to be put in place to ensure that the creation of the framework, as well as its execution and operation, respect the legal and fiduciary constraints that have been outlined in this memo?
- 10. To what extent (and, if so, how) could ICANN, the Organization or a constituent part thereof, be the beneficiary of some of the auction funds?
