Megan Richards: (08:02) *6

Megan Richards: (08:02) sorry

Fabro Steibel: (08:04) Hi all

Jean-Baptiste Deroulez: (08:05) hi Fabro

Fabro Steibel: (08:05) Hello all

Megan Richards: (08:06) glad you're so easily excited :-)

Carlton Samuels: (08:08) Morning all

Megan Richards: (08:08) I knew about the time frame thx

Megan Richards: (08:09) sorry which number?

Jean-Baptiste Deroulez: (08:09) 54

Calvin Browne: (08:09) Hi all

Jordyn A Buchanan: (08:09) I just joined.

Waudou: (08:11) echo

Laureen Kapin: (08:12) Jonathan, we're getting an echo when you speak.

Jonathan Zuck: (08:13) I think it's coming from Megan's machine

Megan Richards: (08:13) I did mute

Pamela Smith: (08:14) TY, Megan.

Carlton Samuels: (08:16) Isn't about timing?

Carlton Samuels: (08:16) AAah, +1 and yes to Megan comment.

Carlton Samuels: (08:19) @Megan. Is the recommendation about process?

Megan Richards: (08:19) me

Megan Richards: (08:19) shall I explain?

Carlton Samuels: (08:20) If it is about process then maybe what we need to say that directly.

Jordyn A Buchanan: (08:21) I actually thought the Early Warning advice was a lot clearer than some of the later GAC advice.

Waudou: (08:21) Is "clarity" measurable?

Eleeza Agopian: (08:21) Actually, these three recommendations are all part of a single recommendation in the paper: 1 recommendations with 3 parts.

Waudou: (08:21) Could we recommend a format for advice

Carlton Samuels: (08:21) @Waudou: As it relates to process yes

Jamie Hedlund: (08:22) Sorry to join late.

Megan Richards: (08:22) Jordyn. that's what I said that GAC ew was clear and GAC general not always

Carlton Samuels: (08:23) One recommendation with three parts could be confusing!

Jordyn A Buchanan: (08:23) I think that makes sense.

Eleeza Agopian: (08:23) @Carlton, we have several recommendations in that format.

Megan Richards: (08:23) ok

Carlton Samuels: (08:24) @Eleeza: Yes. But this one has a different flavour; politically-tinged.

Waudou: (08:24) Megan we do not get the echo when you are speaking

Eleeza Agopian: (08:27) Who should carry out the review?

Eleeza Agopian: (08:27) PDP WG or ICANN org?

Carlton Samuels: (08:27) @#57: Agree pre-requisite.

Eleeza Agopian: (08:27) Thank you. Both are listed.

Megan Richards: (08:27) to pep and ABB

Calvin Browne: (08:27) #57 agree

Megan Richards: (08:27) pdp

Eleeza Agopian: (08:28) thanks

Jordyn A Buchanan: (08:28) I have some minor suggestions around wording.

Jordyn A Buchanan: (08:28) But can work those offline.

Waudou: (08:29) that sounds like the next recommendation

Jonathan Zuck: (08:29) wording of these on DR?

Jordyn A Buchanan: (08:29) Previous recommendation about Communities.

Jonathan Zuck: (08:29) k

Eleeza Agopian: (08:30) Yes, these are all three parts of the same recommendation.

Jordyn A Buchanan: (08:30) Same with this one--I agree with the intent, but think the recommendation should probably just be "the PDP should address the issue of inconsistent decisions" rather than getting into details about what they should do.

Jordyn A Buchanan: (08:30) (And agree with Jonathan we can just consolidate.)

Jordyn A Buchanan: (08:33) Happy to work with Megan on language for this one too.

Megan Richards: (08:33) jordyn Happy to do so

Megan Richards: (08:37) right

Carlton Samuels: (08:38) @Jordyn: Are the specific recommendation tied to results of the various surveys in some way?

Megan Richards: (08:38) I saw your message but not the text

Jordyn A Buchanan: (08:38) Hmm, maybe I failed to attach the word doc?

Jordyn A Buchanan: (08:39) No, it looks like it should have been attached?

Megan Richards: (08:41) sorry jordyn. found it now. am working from mobile which doesn't show all info!

Jordyn A Buchanan: (08:41) Okay, great. Let me know what you think (I mostly tried to just onboard feedback from other people and make the recommendations as actionable as possible)

Carlton Samuels: (08:42) @Jonathan: +1 for sec market data and prerequisite

Megan Richards: (08:43) jordyn just sent you an email that just fine. thx

Carlton Samuels: (08:43) @Jonathan: Commercial transaction perhaps?

Carlton Samuels: (08:44) @Jonathan: Yes

Eleeza Agopian: (08:44) If the team is proposing this is important for the next review, then it would be a low priority.

Eleeza Agopian: (08:45) I dont know the answer either.

Jordyn A Buchanan: (08:46) I'm going to be off Adobe Connect for a few but am on the phone still.

Carlton Samuels: (08:47) We lost Jonathan?
