RDS PDP WG Poll on Purpose - 22 February

During our 22 February call, the RDS PDP WG continued deliberation on the following sub-question:

Question 2.3: What should the over-arching purpose be of collecting, maintaining, and providing access to gTLD registration (thin) data?

The draft statement of purpose previously created by the RDS PDP WG, along with related background materials, can be found in this meeting handout: 22FebMeeting-Handout.pdf (This may be helpful in completing the poll.)

The following poll questions give all WG members an opportunity to confirm, reconsider, or elaborate upon points of agreement that surfaced during the 22 February call. This poll will close at COB Saturday 25 February 2017.

As previously announced, by submitting a response to this poll, you are granting permission for your entire response - including WG member name and response timestamp - to be included in published poll results. In the 22 February call, the WG reviewed its Draft Registration Data and Directory Services Statement of Purpose, captured in our Key Concepts Working Draft, Section 2.3.

This Statement of Purpose was intended to define the specific purpose(s) of a potential RDS for gTLD names. To ensure those purposes are understood in the appropriate context, a list of goals for each RDS purpose was also provided.

WG members expressed support for the following "Goals for each RDS Purpose" listed in that draft Statement of Purpose; there were no objections:

i) Consistency with ICANN's mission.
ii) Consistency with other "consensus policies" that pertain to gTLDs.
iii) To provide a framework that enables compliance with applicable laws.
