

PROJECT

LACRALO Active Participation Metrics

Participation and engagement criteria (indicators) herein detailed are intended for:

- Meetings (virtual and face-to-face).
- Participation in working groups at all levels (LACRALO, ALAC, ICANN).
- Participation in mailing lists.

Until otherwise defined, LACRALO's Chair and Secretary shall be responsible for creating Participation Checklists.

Any ALS member participation shall be valid for metrics.

LACRALO will use the following criteria and thresholds to measure ALS participation within our region and in At-Large activities.

- 1) ALS active participation shall mean participation in:
 - a) at least 50% (fifty percent) of monthly meetings (teleconferences),
 - b) participation in 1 (one) webinar.
 - c) To have, at least, one ALS member participating in a LACRALO, ALAC, ICANN or Cross Community Working Group, within the last calendar year being considered.

The Chair and Secretary shall be responsible for keeping regular contact with the ALSes that are not participating, and said contact shall be duly documented. This clause is intended to maintain the inclusive criterion, in order to avoid de-certifications and increase participation.

Those ALSes not complying with the active participation criterion within the last 12 months prior to the date of the event shall not be able to apply for funding for a representative to attend face-to-face meetings organized, or sponsored and paid by ICANN.

The same criterion shall be applied to those ALSes applying for the CROP program.
