Charla,

Here is the SSR2-RT teams official request for the two tools I have previously indicated they were interested in using to support their work– Slack and Trello. How soon will we know if this can move forward for SSR2 to use?
Also note that James is willing to work with IT on feasibility and use cases.

Subject: [Ext] Request for Tools

Hi Both,
Please find attached my request for tools for the RT as we spoke about in Madrid. Happy to speak to ICANN IT on these topics and would hope that we can move quickly on this.
