CSC Findings of IANA Naming Function Performance Report for the Month of March 2022

Date: 20 April 2022

Overall Finding
The CSC completed review of the March 2022 IANA Naming Function Performance Report and finds that PTI's performance for the month was:

> Excellent- PTI's performance over March 2022 was 100%. PTI met all 64 of the currently defined thresholds. The current list of thresholds is included in PTI's performance report.

Metrics That the CSC is Tracking Closely
Currently, there are no metrics requiring close tracking.

SLA metrics that are in the process of being changed
Currently, there are no SLAs in the process of being changed.

Report of Escalations
During this reporting period, PTI notified the CSC of one escalation. The CSC has discussed the escalation and determined that it is not a persistent performance issue or systemic problem associated with the provision of the IANA naming services. The CSC continues to monitor the situation.
