

**From EWG Report Annex D**

**Do existing gTLD registration data elements sufficiently meet the needs?**

Approach: Concentrate on the superset of data elements that may be collected and possibly displayed in the RDS. That is, review the entire table of proposed elements, decide what to delete/add, then decide what to collect/display.

Data Element	Data Set
Domain Name	MPDS
DNS Servers	MPDS
Registrant Name and/or Organization Registrant Type Registrant Contact ID Registrant Contact Validation Status Registrant Contact Last Updated Timestamp	
Registrant Company Identifier
