Phil Marano::)

Phil Marano:+1

Phil Marano:Folks still traveling after the GDD Summit possibly.

Susan Payne:hi

Susan Payne:I'm afraid I won't make next 2 week's calls either due to INTA and travels

Amr Elsadr:You bet, Lori. Good luck.

Susan Payne:But we could do over list

Susan Payne:what are we due to do?

Philip Corwin:Good day all

Philip Corwin:We have the magnificent 7 ;-)

Terri Agnew:@Mary, we heard you for a moment but no longer

Susan Payne:same examples relevant to 2 were captures here:

Mary Wong:Sorry my audio isn't working

Kathy:Hi All, Apologies for joining late.

Mary Wong:@Susan, wasn't Q11 put into the TMCH list?

Mary Wong:So the question is whether Q11 is even needed here (as several Sub Team members have noted in past discussions)

Mary Wong:Maybe park this for now and suggest that the WG look at all parked questions when they are done with the other questions?

Kathy:What question are we on?

Mary Wong:Q16, for instance, was also noted as being something that's being discussed as part of the broader TMCH deliberations. This could conceivably be parked and returned to.

Kathy:Agree with Kristine

Amr Elsadr:@Kathy: Questions 13 and 22, or updated questions 11 and 12.

Susan Payne:exactly Lori

Kathy:yes

Mary Wong:SUGGESTION - make a notation where the question is being covered in the general or TMCH discussion, and consider refining the question to make it specific to Sunrise.

Mary Wong:Then the WG can decide whether to take it up as part of a Sunrise review, defer it till the end of Sunrise review, or park it until general TMCH/other relevant discussions have concluded.

Susan Payne:and of course legally-similar goods can be across different classes

Lori Schulman:yes, Susan, thank you.

Kristine Dorrain - Amazon Registry Services:Agree, Mary.

Philip Corwin:To be clear, I was not proposing a particular implementation approach. I was trying to find out if we all have a common understanding of what would be required to implement the contemplated restriction.

Kathy:@Phil: I think you have one good implementation path.

Kathy:But it may be easier...

Susan Payne:@ Kathy Yes, it is in scope - although just because we have been asked to deal with it it does not pre-suppose we will say "yes" to the Q :)

Kathy:yes

Susan Payne:yes

Philip Corwin:To further clarify, what would be the method of limiting sunrise registrations to a mark's goods and services? And would the generation of claims notices be similarly restricted?

Philip Corwin:what is question?

Kathy:I don't understand the "parking"

Kathy:Meaning it becomes part of our WG questions for this area?

Kristine Dorrain - Amazon Registry Services:Phil, part one of what you asked belongs here. Part 2 is on the claims list of Qs

Kristine Dorrain - Amazon Registry Services:Parking in my mind simply means, we might have already answered it by the time we get here (or have sufficiently changed things by the time we get there).

Kristine Dorrain - Amazon Registry Services:It's my understanding that neither sub team is doing substantive work...right? The entire WG will answer these Qs. did I miss something?

Lori Schulman:Kristine that is my understanding

Susan Payne:25

Kristine Dorrain - Amazon Registry Services:All excellent questions, Phil

Amr Elsadr:@Kristine: That is my understanding as well. Perhaps the two Sub Teams can coordinate their proposals on these questions, as I believe Phil has suggested?

Susan Payne:yep all good points Phil

Kristine Dorrain - Amazon Registry Services:Including the reluctance of most Registry Operators to "restrict" their TLDs

Kristine Dorrain - Amazon Registry Services:.HORSE may not want to "categorize" their TLD

Susan Payne:This obviously is an interesting debate but can we hold it over to when we are supposed to talk about it

Kristine Dorrain - Amazon Registry Services:Thanks Amr, I agree.

Kristine Dorrain - Amazon Registry Services:+1Susan

Susan Payne:Yes Lori, I do think this is relevant to prioritisation

Mary Wong:Is there a particular wording that this group can agree to, mindful that the general question will be noted as also being covered in the TMCH discussion?

Susan Payne:yes

Kathy:yes

Lori Schulman:I support Kristine's suggestion

Kristine Dorrain - Amazon Registry Services:Yes Phil, I think the WG will need to answer those Qs.

Kristine Dorrain - Amazon Registry Services:In its entirety. :)

Kristine Dorrain - Amazon Registry Services:As in, the WG, in its entirety. Not our little puddle of 9 people. :)

Philip Corwin:We are not a puddle. We are a lake on a diet ;-)

Kristine Dorrain - Amazon Registry Services:LMAO

Kathy::-)

Philip Corwin:When will our next call be, or are we wrapped up? I am unable to make the next two Fridays due to INTA Annual in Barcelona.

Lori Schulman:Our next call will be in 3 weeks as I am tied up too

Amr Elsadr:Before we end the call, I wanted to note that Lori won't be available for calls over the next two weeks. Can we confirm that we will still hold calls?

Lori Schulman:I think that many will be at INTA

Lori Schulman:but i am happy to cede the chair if others want dial in

Kathy:Should we skip next week?

Kristine Dorrain - Amazon Registry Services:Perhaps if we do good work this week suggesting data sources via email, we can do the work online?

Kristine Dorrain - Amazon Registry Services:I'd hate to lose momentum

Amr Elsadr:@Kristine: I think that's doable.

Susan Payne:sounds good. apologies, I need to jump off for another call

Kristine Dorrain - Amazon Registry Services:What Phil did was a good example a model

Kathy:How many people would be on the call next week?

Philip Corwin:Must leave call

Kristine Dorrain - Amazon Registry Services:I'll here, but if you look at the list on today's call, I might be it.

Kristine Dorrain - Amazon Registry Services:Thanks.

Kathy:Bye All

Kathy:Safe travels!

Kristine Dorrain - Amazon Registry Services:Thanks Lori, great job

Lori Schulman:thank you

Amr Elsadr:Thanks all. Bye.
