“You’ll see a posting on Facebook sometimes: ‘anybody know the name of a good conservative fact-checker?’

The truth is, there's no such thing as either a conservative fact-checker or a liberal fact-checker. ”

BILL ADAIR
CREATOR, POLITIFACT

— THE OPEN MIND —

1. A COMMITMENT TO NONPARTISANSHIP AND FAIRNESS

We fact-check claims using the same standard for every fact check. We do not concentrate our fact-checking on any one side. We follow the same process for every fact check and let the evidence dictate our conclusions. We do not advocate or take policy positions on the issues we fact-check.

2. A COMMITMENT TO TRANSPARENCY OF SOURCES

We want our readers to be able to verify our findings themselves. We provide all sources in enough detail that readers can replicate our work, except in cases where a source's personal security could be compromised. In such cases, we provide as much detail as possible.

3. A COMMITMENT TO TRANSPARENCY OF FUNDING & ORGANIZATION

We are transparent about our funding sources. If we accept funding from other organizations, we ensure that funders have no influence over the conclusions we reach in our reports. We detail the professional background of all key figures in our organization and explain our organizational structure and legal status. We clearly indicate a way for readers to communicate with us.

4. A COMMITMENT TO TRANSPARENCY OF METHODOLOGY

We explain the methodology we use to select, research, write, edit, publish and correct our fact checks. We encourage readers to send us claims to fact-check and are transparent on why and how we fact-check.

5. A COMMITMENT TO OPEN AND HONEST CORRECTIONS

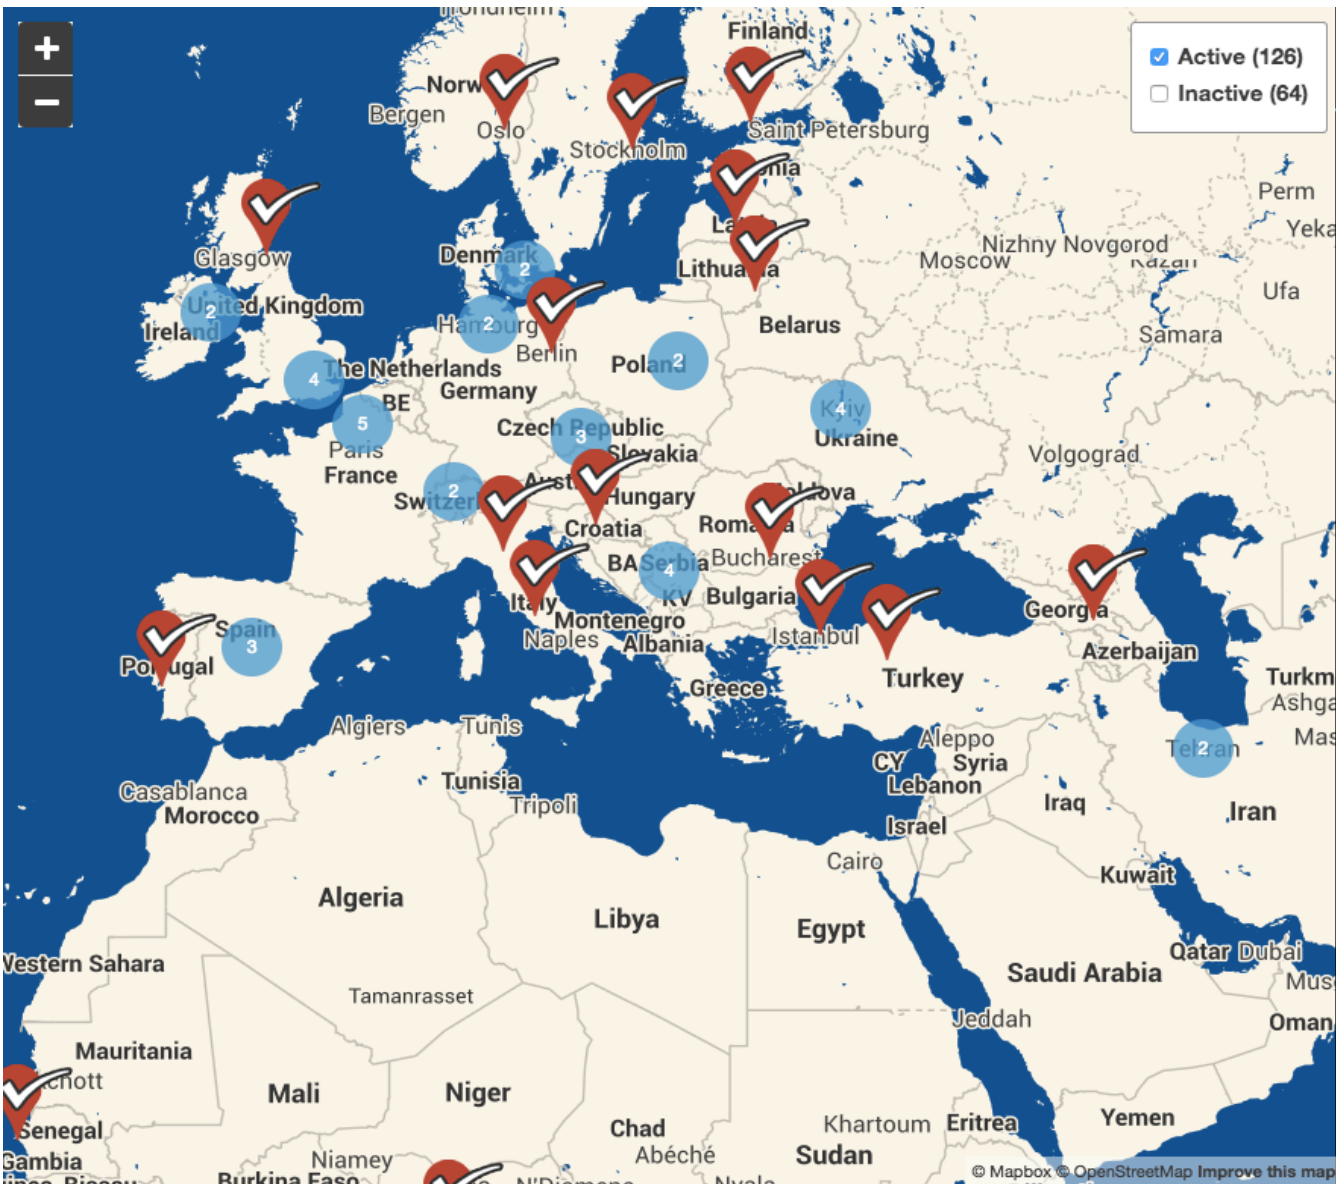

We publish our corrections policy and follow it scrupulously. We correct clearly and transparently in line with our corrections policy, seeking so far as possible to ensure that readers see the corrected version.

Problems & Issues

- Whose facts?
- Increasing control of the authorities over such initiatives: The example of Turkey and Facts
- The over-factuality carries the risk of degrading “the important facts”

“A lie can travel half way around the world while the truth is putting on its shoes.”

-Mark Twain
