About the Film

Brad Pitt and Academy Award winner Cate Blanchett star in F. Scott Fitzgerald's story of the life and loves of a man experiencing his life backwards-- The Curious Case Of Benjamin Button. Director David Fincher (Zodiac, Seven) brings this remarkable tale to the screen. Benjamin Button (Pitt--Troy), is born as an 80-year-old man in New Orleans just after World War I and proceeds to grow younger as time passes. Button, who like any other man is unable to stop time, experiences life and his love for Daisy (Blanchett--The Aviator) oddly out of synch with the rest of humanity in this time traveler's tale of the people and places Benjamin Button encounters, the loves he loses and finds, the joys of life and the sadness of death, and what lasts beyond time.

According to the Egyptian IPR law

- ▶ In Article 181, whoever infringe author's rights shall face imprisonment for one month and shall be fined 5000 up to 10000 Egyptian pounds.

Who to blame?

- ▶ The removal of NBC content from iTunes in 2007
- ▶ Welter (2010) found that introducing a new blockbuster movie through Netflix reduced its piracy rate.
- ▶ Furthermore, the exchange rate fluctuations between the Dollar and the Egyptian Pound lead to a higher subscription price every time the Dollar rate moves.
- ▶ lacking methods for online payments withdraw some illegal downloaders from joining Netflix.
