David Taylor: (08:28) down

Carlos Gutierrez: (08:28) @Laureen, in terms of the next section on pricing data, it is important to mention that we are talking about quantiitative data over time (or time series) for statisticl analysis

Laureen Kapin: (08:33) @Carlos, I agree that for certain categories of data, like pricing, the analysis is quantitative.

Calvin Browne: (08:51) ok - seems my adobe connect is freezing up every now and again

Calvin Browne: (08:51) I note that the link above is the image version of the recommendations and if possible - could we please get it in a searchable pdf version

Calvin Browne: (08:53) (Jean-Baptiste did email me a copy in Joburg)

Alice Jansen 2: (08:53) hi Calvin - noted. We will relay the feedback to the team who designed the document's format

Calvin Browne: (08:54) <thanks>

Waudu Siganga: (08:57) "Continue to accry out as appropriate..."

Waudu Siganga: (08:57) carry out

Jonathan Zuck: (09:01) so let's add "after consultation" and hange prereq to high

Waudu Siganga: (09:02) I agree to the change from prereq to High. Prereq appears not to flow with the recommendations

Jordyn A Buchanan: (09:04) I managed to join, but my connection is a bit dicey so far

Alice Jansen 2: (09:04) Welcome, Jordyn!

Calvin Browne: (09:08) I'm unfortunately going to have to drop off shortly

Laureen Kapin: (09:08) An overall action item: let's make sure our references to the survey all use the same terms/titles.

David Taylor: (09:09) I can hear you Megan

Laureen Kapin: (09:09) I can hear you.

Karen Mulberry: (09:09) I can hear megan

Megan Richards: (09:09) I can't hear anyone else and I'm finsihed speaking :-)

Jordyn A Buchanan: (09:09) me too

David Taylor: (09:09) and I am even listening too!

Drew 2: (09:09) I can hear

Dejan Djukic: (09:10) me too

Laureen Kapin: (09:10) I can't hear JZ.

Jonathan Zuck: (09:10) so you cannot hear me?

Drew 2: (09:10) nope

Eleeza Agopian: (09:10) Can't hear Jonathan.

David Taylor: (09:10) cant hear you Jonathan

Jonathan Zuck: (09:10) awesome

Jonathan Zuck: (09:10) I'll try to leave and come back

David Taylor: (09:10) hope you said something BAD

David Taylor: (09:10) it is my revenge.

Drew 2: (09:10) lol

Megan Richards: (09:11) usually my mic doesn't work !!

Drew 2: (09:11) Whatever JZ's point is, I think it's eloquently expressed and a true vision for the future

Jonathan Zuck: (09:12) Thank you Drew!

Eleeza Agopian: (09:12) Lauren, can you type out the action item on 11 here? I missed it and want to be sure

Eleeza Agopian: (09:13) sorry was distracted by lost audio...

Brenda Brewer: (09:13) I can hear Jordyn fine...anyone else?

Kaili Kan: (09:14) Jordyn is load and clear to me.

David Taylor: (09:14) was

Jordyn A Buchanan: (09:14) I got booted off

Jordyn A Buchanan: (09:14) be right back

Laureen Kapin: (09:15) During editing process, proof readers should make sure that the references to the surveys (consumer end-user and registrant) are consistent throughout both the Report and the Recommendations.

Eleeza Agopian: (09:16) Thank you, Lauren!

Brian Aitchison: (09:36) sorry call dropped. dialing back in

Jordyn A Buchanan: (09:36) We can move the renewal analysis to a footnote too

Jonathan Zuck: (09:36) that might make sense

Jordyn A Buchanan: (09:36) That puts it on equal footing

Jonathan Zuck: (09:37) I can add some stuff on alternative hypotheses as well

Laureen Kapin: (09:40) @ Eleeza, I'll be suggesting language for the overall text, not just fn.

Eleeza Agopian: (09:41) Thanks, Lauren.

Carlos Gutierrez: (09:41) good point Jamie

Eleeza Agopian: (09:43) Logging out of AC, but will be on phone. thank you.

Megan Richards: (09:49) can't hear you jonathan if youre speaking

Alice Jansen 2: (09:49) you should all have scroll control

Jordyn A Buchanan: (09:53) if you need it as part of the round, it should probably be a prereq

Jordyn A Buchanan: (09:54) But it's not clear there's an action here that rises to the level of prereq

Jordyn A Buchanan: (09:54) since there's no distinct action here

David Taylor: (09:54) I would say that they have to be in place before the next round, and indeed whether there is an appeal system or not before the game re starts again.

David Taylor: (09:58) sorry yes, I would certainly include appeals

Carlos Gutierrez: (09:59) sorry folks, I have to run. Nice rest of the week and look forward to report on mergingn Rec 16 with 32-34 next time

David Taylor: (10:00) I have to drop off as have a client call on the hour. sorry. Bye.

Alice Jansen 2: (10:03) @ Laureen - text for recommendations are available on tab 2

Jordyn A Buchanan: (10:05) My understanding was that we were just using this internally in the first place

Jordyn A Buchanan: (10:06) I think we should definitely pay attention to places with lots of dissent

Megan Richards: (10:06) I agree with Laureen that useful for us but some of the "negative" assessments were not entirely negative in my view

Megan Richards: (10:07) also some of the "negative" views were not providing constructive criticism but other comments

Megan Richards: (10:07) Also I have to leave now so apologies

Kaili Kan: (10:11) Thank you. Bye!

Waudu Siganga: (10:11) Ok thanks and bye

Drew 2: (10:12) Ciao
