

Adobe Connect Observer Chat Transcript - CCT-RT Plenary #52 – 2 August 2017

Brenda Brewer: This chat pod is not monitored by the Review Team. Please use this chat pod for any technical inquiries. Thank you!

John McCormac - HosterStats.com: Is it possible to get a message through to the CCT review team?

John McCormac - HosterStats.com: as an observer

Brenda Brewer: Yes

John McCormac - HosterStats.com: Thanks. Tell them the reason that they could not correlate renewals was because the Dec 2016 domains have not gone thru renewal and won't until Dec 2017 to March 2018.

John McCormac - HosterStats.com: they also were not correlating at a domain level,

John McCormac - HosterStats.com: There is a connection but not in the way that they think.

Brenda Brewer: you may also submit to the Review Team at anytime via; [input-to-cctr@icann.org](mailto:cctr@icann.org)

John McCormac - HosterStats.com: Thanks. Will do that as well.

Brenda Brewer: Great, thank you!

John McCormac - HosterStats.com: But please make the point clear to them that they are making a fundamental mistake with their renewal hypothesis.

John McCormac - HosterStats.com: The renewals they are looking for have not happened yet.

Brenda Brewer: John, as we have moved to another topic, this chat will be posted on the wiki page for this meeting and Leadership will be notified of these comments.

John McCormac - HosterStats.com: Any chance that they can revisit the topic briefly?

Brenda Brewer: we have reached the time limit of this meeting and people are dropping off.

John McCormac - HosterStats.com: Ok, thanks, Brenda.

Brenda Brewer: You're welcome.
