

**During our 22 August meeting, the RDS PDP WG continued deliberation on the Data Elements Charter question: What gTLD registration data elements should be collected, stored, and disclosed?**

**The purpose of this week's poll is to gauge the level of agreement on the RDS possibly supporting 5 data elements, which were mostly agreed on as per the [28 June poll](#) (reseller, URL of Internic complaint site, original registration date, registrar abuse contact email address and registrar abuse contact phone). Additionally, the poll is meant to determine the level of support for and objection against the RDS supporting other outstanding data elements also previously included in the 28 June poll, however, the purpose in polling on these data elements now is to only serve as a starting point for further deliberation by the WG during next week's WG call.**

Any WG member who did not attend the 22 August WG meeting is expected to catch up on WG discussion before taking this poll. Meeting notes and materials, including transcripts and recordings, can be found here: <https://community.icann.org/x/W2fwAw>.

These data elements were:

- Registrant Fax + Registrant Fax Ext
- Registrant SMS\*
- Registrant IM\*
- Registrant Social Media\*
