

During our 12 September meeting, the RDS PDP WG continued deliberation on the Data Elements Charter question: *What gTLD registration data elements should be collected, stored, and disclosed?* Specifically, we considered RDS support for registration data elements pertaining to Registrant Postal Address and Registrant Phone. Both sets of data elements exist in WHOIS today and are described in the [2013 RAA](#).

This poll gives all WG members an opportunity to consider and express their views about two possible WG agreements identified during this call. Please note that this poll covers only RDS support for these data elements; it should NOT be assumed that values for these data elements will be collected, or displayed if collected. Collection and display policies for these data elements will be deliberated at a later time.

Poll results will be used to inform deliberation during future WG meetings and on-list, helping the entire WG better understand and then hopefully agree upon key concepts for or against inclusion of related data elements in the RDS.

Any WG member who did not attend the 12 September WG meeting is expected to catch up on WG discussion before taking this poll. Meeting notes and materials, including transcripts and recordings, can be found here: <https://community.icann.org/x/ZmfvAw>

This poll will close at COB Saturday 16 September.

As previously announced, by submitting a response to this poll, you are granting permission for your entire response - including WG member name and response timestamp - to be included in published poll results. Responses submitted by WG members are not assumed to reflect the views of any organization with which they may be affiliated.

*** 1. Your name (must be RDS PDP WG Member - not WG Observer - to participate in polls)**

If you are a WG Observer and wish to participate in polls, you must upgrade to WG Member to do so.

Please do NOT participate in this poll if you are a WG Observer who has not upgraded to WG Member.

2. Registrant Postal Address:

During the 12 September WG call, those on the call expressed support for the following statement; no objections were raised on the call:

The RDS must support Registrant Postal Address data elements: Registrant Street Address, City, State/Province, and Postal Code.

Please indicate below whether you agree or disagree with this statement.
