

RDS PDP WG Poll - 26 September

During our 26 September meeting, the RDS PDP WG completed deliberation on the new Original Registration Date data element proposed by the EWG Final Report. This proposed new data element was considered at length by a drafting team, which introduced [it's recommendations](#) during the 20 September WG call. Those recommendations were discussed on-list over the past week, converging on the proposed WG agreement reflected in this poll.

This poll gives all WG members an opportunity to consider and express their views about that proposed WG agreement.

Poll results will be used to inform deliberation during future WG meetings and on-list, helping the entire WG better understand and then hopefully agree upon key concepts for purposes of registration data and directory services.

Any WG member who did not attend the 26 September WG meeting is expected to catch up on WG discussion before taking this poll. Meeting notes and materials, including transcripts and recordings, can be found here: <https://community.icann.org/x/amfwAw>

This poll will close at COB Saturday 30 September.

As [previously announced](#), by submitting a response to this poll, you are granting permission for your entire response - including WG member name and response timestamp - to be included in published poll results.
