Emily Barabas:@Christa, some comments received referenced a topic in general but did not respond to a specific CC2 question. These are included at the top on the page.

Jeff Neuman:I think a searchable Guidebook on the ICANN Website makes sense

Jim Prendergast:further to my answer - I dont understand how the organization and presentation of the AGB is a policy issue for this group to deliberate or decide.

Jeff Neuman:The BRG comments make a lot of sense

Jeff Neuman:@Jim - We understand your comment, but it is a question we have in the charter

Jim Prendergast:ok

Jeff Neuman:so, do you agree with any of the comments or the positions taken

Jim Prendergast:I need to review them more thoroughly

Jeff Neuman:The Afilias position is worth noting, but could that be solved by having the single document be the "authoritative source" and the other simplifying docs contain the appropriate disclaimers

Jeff Neuman:Is anyone from the ALAC on the call?

John Laprise:here

John Laprise:not alac but at large

Jeff Neuman:I am wondering how to address the ALAC comment

John Laprise:(incoming naralo alac rep)

Jim Prendergast:question - how can those who are just seeing these for the first time submit feedback after the calls?

Emily Barabas:one moment, checking document permissions

Jeff Neuman:Our role as a working group will be to address all of the comments received and whether and how we are taking those into account

Emily Barabas:@steve, confirmed

Emily Barabas:all can comment in the google documents

Julie Hedlund:See: [https://urldefense.proofpoint.com/v2/url?u=https-3A\\_docs.google.com\\_spreadsheets\\_d\\_1427pgTckguOj2NZZzMnz-5FH-5FIPe54dtvUErSjd9uhkZw\\_edit-23gid-3D1442059046&d=DwIFaQ&c=FmY1u3PJp6wrcrwl3mSVzgfkbPSS6sJms7xcl4I5cM&r=DRa2dXAvSFpClgmkXhFzL7ar9Qfqa0Algn-H4xR2EBk&m=UaYhaxITjVTIJeamAyTGlcXy8hNDACWL3iMmMByBie8&s=1G1tenEB-8BR2jkgklzYYMyxHk5Kvi\\_p41MUXPapPoA&e=](https://urldefense.proofpoint.com/v2/url?u=https-3A_docs.google.com_spreadsheets_d_1427pgTckguOj2NZZzMnz-5FH-5FIPe54dtvUErSjd9uhkZw_edit-23gid-3D1442059046&d=DwIFaQ&c=FmY1u3PJp6wrcrwl3mSVzgfkbPSS6sJms7xcl4I5cM&r=DRa2dXAvSFpClgmkXhFzL7ar9Qfqa0Algn-H4xR2EBk&m=UaYhaxITjVTIJeamAyTGlcXy8hNDACWL3iMmMByBie8&s=1G1tenEB-8BR2jkgklzYYMyxHk5Kvi_p41MUXPapPoA&e=)

Alan Greenberg:Sorry to be late!

Phil Buckingham:sorry I am late to the call.

Jeff Neuman:We can create the "Filling gTLD applications for Dummies" (assuming we can get the trademark rights for that :)

Jeff Neuman:+1 on a good table of contents and an index

Jeff Neuman:And rather than PDFs, it should be searchable text

Jim Prendergast:I like the searchable component and keep in mind that it needs to be multilingual as well

Ashley Roberts:Agree with it being searchable

Kurt Pritz:Wasn't it INTA that led the charge in changing the Guidebook after the application window was opened?

Kurt Pritz:So it is good that they are against change now

Jeff Neuman:I think you are confusing INTA with the National Advertising Association

Jeff Neuman:(Or whatever they were called)

Kurt Pritz:I think it was all IP

Greg Shatan:Association of National Advertisers

Jim Prendergast:"another bit at the apple"

Greg Shatan:Not an IP organization, Kurt.

Ashley Roberts:I agree with the INTA comment. It seems to me fairly uncontroversial that we should have predictability with regard to the AGB, prior to the next application round commencing.

Jeff Neuman:I think the points raised by the GAC need discussion

Jeff Neuman:BUt that is also a topic in WT 3

Steve Chan:It seems that there might be a fair amount of overlap between this question and the overarching issues on predictability/community engagement. If that's the case, we should take care to avoid duplicative or conflicting outcomes.

Greg Shatan:Still awake....

avri doria:yes, awake

Kurt Pritz:I think all of these issues were addressed in the original Guidebook. The Guidebook was changed

Phil Buckingham:Agreed Jim . Finalised full stop.

Jeff Neuman:Totally agree on the refund issue

Steve Chan:@Jeff, I'll plug the work of the drafting team on predictability/community engagement again, in this case. I believe the goal is to establish a framework for addressing changes that might be needed in a predictable way.

Kurt Pritz:Looking at the last line of the last RySG comment - it is almost word-for-word the same as the existing policy

Jim Prendergast:agree with the agreement(s) being finalized ahead of time as well.

Phil Buckingham: Comments noted for WT2 re the RA . Good suggestion to make the RA available beforehand .

Ashley Roberts:Thanks Jeff

Terri Agnew:We can hear you Sara

Terri Agnew:New gTLD Subsequent Procedures Sub Team – Track 1 - Overall Process/Support/Outreach Issue will take place on Tuesday, 25 July 2017 at 20:00 UTC for 60 minutes.

avri doria:bye, thanks

Ashley Roberts:Thanks everyone
