Brenda Brewer: (8/3/2017 05:34) Good day and welcome to RDS-WHOIS2-RT Meeting #4 on 3 August 2017 @ 11:00 UTC!

Alan Greenberg: (05:50) Hi Susan. Hope you are travelling and not at home at 3 am.

Alan Greenberg: (05:50) Oops - 4

Alice Jansen: (05:55) Good morning/afternoon/evening :-)

Chris Disspain: (05:57) Greetings

Cathrin Bauer-Bulst: (05:57) hi everyone

Erika Mann: (06:01) Hi everyone!

Erika Mann: (06:02) I'm here Alan!

Erika Mann: (06:04) There seems to be a break

Cathrin Bauer-Bulst 2: (06:10) sorry that wasn't a Hand, I had to rejoin the room

Erika Mann: (06:11) Alan - I believe Chris and Susan raised their hand

Chris Disspain: (06:11) not me

Susan Kawaguchi: (06:11) not me

Carlton SAMUELS: (06:11) Good morning all

Chris Disspain: (06:12) It's the microphone symbol I think

Susan Kawaguchi: (06:12) phantom hands

Erika Mann: (06:12) They say no ... strange I see it ..

Carlton SAMUELS: (06:12) Had a helluva time getting on. In this day and age a hotel with bad connections!

Alice Jansen: (06:17) Here is a link to the draft Terms of Reference that were circulated for your consideration - <http://mm.icann.org/pipermail/rds-whois2-rt/attachments/20170803/527093e5/DraftToR-Template-RDS-WHOIS2-RT-0108172-0001.docx>

Erika Mann: (06:18) Can we see the ToR template again!

Erika Mann: (06:19) That's fine as well ... what's the deadline Alan?

Erika Mann: (06:19) Give us two weeks!

Lili SUN: (06:19) For me, the mission quoted from the Bylaws seems too ambitious for the review team.

Erika Mann: (06:20) Perfect

Cathrin Bauer-Bulst 2: (06:20) ddln on 14 ok for me

Carlton SAMUELS: (06:27) The one that said 'Not implementable' but got done!

Carlton SAMUELS: (06:27) @Alan: Yes, that one

Stephanie Perrin: (06:31) apologies for being late, had failed to b

Erika Mann: (06:33) Stephanie

Stephanie Perrin: (06:34) I will have to sign off and try to dial in again, ad is not responding

Carlton SAMUELS: (06:38) How do you assess a moving target?

Carlton SAMUELS: (06:39) @Alan: Can someone explain "cross-departmental validation implementation"?

Carlton SAMUELS: (06:40) PPSAI implementation IRT is ongoing!

Erika Mann: (06:41) I agree with Susan

Lili SUN: (06:46) Yes, given the evolving of policies, some topics are inevitable.

Carlton SAMUELS: (06:49) @Chris: Good point!

Carlton SAMUELS: (06:51) Consider the NextGen RDS PDP. I personally think we spent too much time bouncing the rubble. But are we seriously contemplating telling the Board and can the Board tell the NextGen RDS PDP WG to speed it up already?

Susan Kawaguchi: (06:58) Steve Crocker basically told the RDS WG at the Johannesburg open session to speed up the work

Chris Disspain: (06:58) but if those deliberations/trends are going on in the gnso then how can this review influence them?

Carlton SAMUELS: (06:59) @Susan: Was Steve speaking for the Board or giving an opinion as "Steve Crocker" ?

Susan Kawaguchi: (07:00) @ Carlton that is a bit hard to determine

Chris Disspain: (07:00) thanks Stephanie...That would be very helpful

Carlton SAMUELS: (07:01) @Susan: Thks.

Chris Disspain: (07:02) but if it's policy Stephanie then it happens in the gnso - I don't see how this review team has any input

Carlton SAMUELS: (07:04) @Stephanie: You're right that there is not a common way to handle the lack of consensus. But the structure of WGs is inherently designed to accommodate lack of consensus

Chris Disspain: (07:04) Stephanie they are goof examples BUT I don't understand how this review team can contribute to solving the problem you set out

Carlton SAMUELS: (07:04) which is usually rickety anyways

Chris Disspain: (07:08) I am going to drop from the chat room shortly but will remain listening on the phone.

Carlton SAMUELS: (07:08) @Stephanie: Everything you observed on EWG I agreed with you was observable and meritorious. The difference is we interpreted it a little differently so implications had a different weight. But make no mistake, I will always encourage to speak/record your truth as you see them. It is the honourable thing to do.

Susan Kawaguchi: (07:10) Agree with Erika

Carlton SAMUELS: (07:11) @Alan: Re compliance data publication. Yes, glad you said it

Stephanie Perrin: (07:11) Thanks Erika, I think you have expressed my concerns well, the policy we create has a regulatory effect. And thanks Carlton for your support

Stephanie Perrin: (07:12) my line speed is so slow I cannot chat

Carlton SAMUELS: (07:15) In respect of RDAP, I think it is important to state principles inherently implementable via RDAP and say it that way

Stephanie Perrin: (07:15) Exactly Carlton

Carlton SAMUELS: (07:17) @Catherine: We don't need to pronounce beyond principles

Carlton SAMUELS: (07:18) Correction: Cathrin. My apologies

Stephanie Perrin: (07:30) Absolutely . thanks Cathrin

Carlton SAMUELS: (07:32) I Have to get ready for an event so have to drop off folks. In Panama City for an event and I'm on the agenda at 9a. Have a 20 minute run to the event venue

Karen Mulberry: (07:35) Thank you
