Carlton SAMUELS: (06:19) I'm hearing you

Carlton SAMUELS: (06:20) No need for new positions

Carlton SAMUELS: (06:23) @Alan: Agreed on process for removal as recorded

Erika Mann: (06:24) Agree Alan

Cathrin Bauer-Bulst 2: (06:24) +1

Carlton SAMUELS: (06:26) Board and policy development organs should be sufficient to note

Alice Jansen: (06:29) Request noted. We will relay to appropriate SME.

Stephanie Perrin: (06:32) Apologies for being late. I had trouble getting on.

Erika Mann: (06:34) In agreement

Cathrin Bauer-Bulst 2: (06:34) I agree

Carlton SAMUELS: (06:35) @Alan: Agree

Carlton SAMUELS: (06:37) @Alan: Would this be an aspirational kind of question?

Carlton SAMUELS: (06:38) @Alan: That's what I think it means.

Erika Mann: (06:39) Agree

Carlton SAMUELS: (06:40) @Alan: How about adding some language on scope for future RTs

Carlton SAMUELS: (06:40) @Alan: +1 Cathrin

Lisa Phifer: (06:40) Bylaws text: (ii) The Board shall cause a periodic review to assess the effectiveness of the then current gTLD registry directory service and whether its implementation meets the legitimate needs of law enforcement, promoting consumer trust and safeguarding registrant data ("Directory Service Review").

Lisa Phifer: (06:42) Note the first RT mandate was: The WHOIS Review Team's scope, guided by the Affirmation of Commitments was to review the extent to which ICANN's WHOIS policy and its implementation are effective, meet the legitimate needs of law enforcement and promote consumer trust.

Carlton SAMUELS: (06:42) @Stephanie: We cannot evade! +1. Let's at least look for language and propose something for the next RT

Stephanie Perrin: (06:45) We are not here to set policy Alan, I am aware of that. However, a proper review would recognize the issues.

Carlton SAMUELS: (06:45) @Alan: There is an overlap. But something about "WHOIS" could take some recording as important to effort even if this RT does not do it.

Stephanie Perrin: (06:46) Eternity, Chris, Eternity;

Carlton SAMUELS: (06:48) I have to drop off now folks. Have an early outside of town appointment. Will listen to the rest of call

Carlton SAMUELS: (06:48) @Alan

Carlton SAMUELS: (06:48) thanks for recognizing it is a different objective.

Stephannie Perrin: (06:50) bye Carlton!

Erika Mann: (06:50) Agree

Stephannie Perrin: (06:51) old hand

Erika Mann: (06:51) Focused point of view

Erika Mann: (06:51) And I send some comments

Lisa Phifer: (06:52) The GDPR compliance activity might fall under activities to address the OECD guidance

Erika Mann: (06:55) You want to broaden perspective and look into the safe harbor provisions as well

Lisa Phifer: (06:57) @Alan is the question addresssing the effectiveness of the current RDS (WHOIS) service or the effectiveness of the RDS PDP?

Stephannie Perrin: (07:00) +1 Erika, transparency is an issue

Stephannie Perrin: (07:01) Transparency reporting is the usual term

Erika Mann: (07:02) Correct Stephanie

Stephannie Perrin: (07:03) Exactly, we are not here to do policy

Lisa Phifer: (07:05) Note that WHOIS RT1 recommendations on accuracy and privacy proxy were that team's attempt to recommend improvements to meet the needs of law enforcement, consumer trust, and safeguarding registrant data (among others)

Stephannie Perrin: (07:07) new hand

Erika Mann: (07:07) I'm here

Erika Mann: (07:07) Old hand

Erika Mann: (07:12) Agree with Volker

Erika Mann: (07:16) I rather would say 'there might be a conflict with certain data protections laws in certain countries'

Stephanie Perrin: (07:16) We actually have a rather complex dance that is impenetrable to the end user, with respect to the different types of Waivers permissible under CCConflicts with law...

Erika Mann: (07:17) Agree concerning the waiver point Stephanie raises

Karen Mulberry: (07:24) Thank you
