Julie Bisland:oh gosh, no, just got tongue tied! :)

Anne Aikman-Scalese (IPC):Thank you for the materials Cheryl and staff!

Cheryl Langdon-Orr (CLO):slide 10

Cheryl Langdon-Orr (CLO):we also bring in experts and key staff on the topics Alan

avri doria:Alan, what meeting could possibly anesthetize you?

Anne Aikman-Scalese (IPC):IN the proposed language for IDN variants of already existing or applied for TLDs, I believe we should add "written" to the language about "by force of agreement". In other words, "by force of written agreement" would mean the commitment is in the Registry Agreement with ICANN.

Anne Aikman-Scalese (IPC):THank you Rubens.

Jeff Neuman:If there is an RSP Program, we should discuss the implementation of that

Jeff Neuman:Evaluation criteria

Jeff Neuman:I need to pull up the slide

Anne Aikman-Scalese (IPC):COMMENT: It does seem that exceptions to controlled interruption to be granted by ICANN.org in its discretion need some policy guidelines rather than being open-ended.

Anne Aikman-Scalese (IPC):Futher to Alan's previous comment, I doubt I personally have the technical knowledge necessary to provide the policy guidelines for ICANN.org granting exceptions to controlled interruption. Would need help from technical community so that IS an answer to your question as to whether we need more information.

Jeff Neuman:Thats because I have not spoken :)

Anne Aikman-Scalese (IPC):COMMENT: Futher to Alan's previous comment, I doubt I personally have the technical knowledge necessary to provide the policy guidelines for ICANN.org granting exceptions to controlled interruption. Julie Bisland:The next New gTLD Subsequent Procedures Sub Team – Track 4 – IDNs/Technical & Operations will take place on Thursday, 17 August 2017 at 03:00 UTC for 60 minutes.

Jeff Neuman:Thanks!

Anne Aikman-Scalese (IPC):Thank you everyone
