steve metalitz:Provider affiliated with registrar is not a "special case," it is the normal case as of today.....

Theo Geurts:correct

Margie Milam:Im going offline but will remain on the phone

Greg DiBiase:i accidentally hung up.... dialing back in

Theo Geurts:will reply on the list later on this week

Volker Greimann:No audit, since ICANN does not get to see the contents unless the provider fails

Francisco Arias:3.1.1.11 ICANN shall have the right, either directly or through use of an independent auditor or other agent, to perform an inspection and audit of the records and systems of all RDE agents.

Francisco Arias:that's in the registrar data escrow spec

Francisco Arias:not sure if that is what you were asking Margie

Theo Geurts:Check, thanks for the clarification

Greg DiBiase:im ok with that name being added. It makes sense to have the name first.

steve metalitz:Agree with Alex re need for name of provider

Greg DiBiase:Agree that the link going straight to the provider's info makes sense.

steve metalitz:Presumably the link to the provider's page would include de the abusen contact

steve metalitz:\*abuse\*

Theo Geurts:for sure, i do not want to have them call our support staff, Steve

steve metalitz:attempted green check!

Alex Deacon:thanks!

Sara Bockey:thanks all
