

ISPCP Overview

Program & Priorities 2018

Wolf-Ulrich Knochen, Chair ISPCP

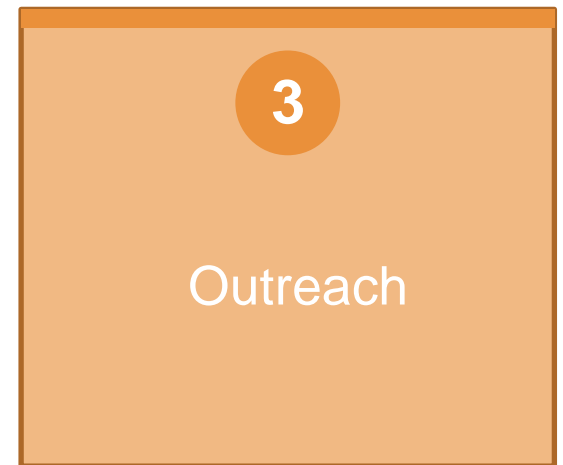

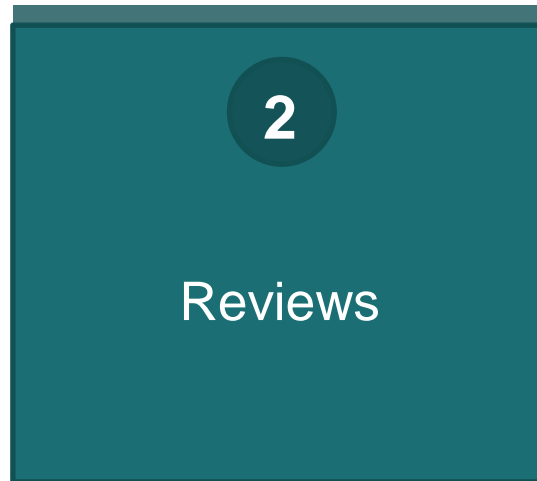

NCPH Intersessional Meeting

01 February 2018

ISPCP: Work Packages

Target: Safeguarding the interests of our constituency members by finding viable processes for the ICANN community

Policy Development: main areas of engagement

- GDPR
- KSK Rollover
- Universal Acceptance
- Names Collision
- Rights Protection Mechanisms (RPM)
- New gTLDs Auction Proceeds

Reviews: main areas of engagement

- GNSO Review (2014) Implementation
 - “Chartering” all recommendations
 - Determine process, time, budget, staff
 - Report to OEC and GNSO Council
- GNSO Review (2019)
 - Prepare for a structural review
 - Consider NCPH related processes
- SSR2 Review
 - Support to continue the work started
 - Ensure that this and similar reviews remain fully under the community control

Outreach

- Follow-up from the ISPCP event in Abu Dhabi
- Presentations in NOG related events
- Planning for an ISPCP event in Barcelona
- Since starting outreach events in 2016 ISPCP membership increased significantly

Further areas of interest

- IoT / new technologies on identifier systems
 - Potential chances and challenges on DNS
- Finance & Budgeting Planning
 - FY19 budget review
