

31	Set up a periodic procedure to determine whether ICANN Contractual Compliance has received complaints for a registry operator's failure to comply with either the safeguard related to gTLDs with inherent governmental functions or the safeguard related to cyberbullying.	ICANN organization	Low
32	Survey Registries to determine how they enforce these safeguards. to cyberbullying.	ICANN organization	Low
33	Collect data comparing subjective and objective trustworthiness of new gTLDs with restrictions on registration, to new gTLDs with few or no restrictions.	ICANN organization, PDP Working Group, and future CCT Review Teams	High
34	Repeat and refine the DNS Abuse Study to determine whether the presence of additional registration restrictions correlate to a decrease in abuse in new gTLDs, and as compared to new gTLDs that lack registration restrictions, and as compared to legacy gTLDs.	ICANN organization, PDP Working Group, and future CCT Review Teams	High
#	Recommendation	To	Prerequisite or Priority Level*
35	Collect data on costs and benefits of implementing various registration restrictions, including the impact on compliance costs and costs for registries, registrars and registrants. One source of this data might be existing gTLDs (for example, for verification and validation restrictions, we could look to those new gTLDs that have voluntarily included verification and validation requirements to get a sense of the costs involved).	ICANN organization, PDP Working Group and future CCT Review Teams	High
