https://urldefense.proofpoint.com/v2/url?u=https-3A__community.icann.org_display_gnsosoi&d=DwIFaQ&c=FmY1u3PJp6wrcrwll3mSVzgfkbPSS6sJms7xcl4I5cM&r=DRa2dXAvSFpCIgmkXhFzL7ar9Qfqa0AIgn-H4xR2EBk&m=hzZy-EWRJeUMgmqJR2dXiM4LCJs42jDW0uyyB6_DPU4&s=_aBjxAS1XmFgwWmtlGTPHj6-N8Mrn5tlSegm38eBp_4&e=

Aslam G Mohamed:thanks Steve will fill in once I reach office

Farzaneh Badii (NCSG/NCUC):Becauase of community concerns Board decided on different measures or just GAC concerns?

Olga Cavalli - co chair WT5 - GAC:hi all I had some difficulties to access the room

Terri Agnew:@Olga, what difficulties were you experencing with adobe connect?

Olga Cavalli - co chair WT5 - GAC:link took me to a different room

Olga Cavalli - co chair WT5 - GAC:and connectivity is not the best

Alfredo Calderon:@Terri, I had the same issue.

Juan Manuel Rojas (NPOC):It happened to me too... (different room)

Juan Manuel Rojas (NPOC):It was opening subteams room

Olga Cavalli - co chair WT5 - GAC:yes subteams one

Terri Agnew:The Adobe Connect room changed shortly after first invite was sent out, apologies for any difficulties this caused.

Justine Chew:It was unfortunate that all the previous meeting invitations and reminders bore the AC link for the other WTs

Cheryl Langdon-Orr (CLO - PDP Co-Chair):Ohh dear did it we do apologise

Cheryl Langdon-Orr (CLO - PDP Co-Chair):my calander invite had the /WT5 one so I guess I was lucky :-)

Timothy Asiedu:Greetings to all.

Cheryl Langdon-Orr (CLO - PDP Co-Chair):Welcome Timothy

Olga Cavalli - co chair WT5 - GAC:In this call I will be only in the chat, thanks Jeff for introducing ou work in the gac

Justine Chew:@CLO - I stand corrected, not all, but certainly the first ones.

Timothy Asiedu:Greetings to all.

Jeff Neuman:You do not have to be a member of the PDP WG.....that said, we would love you to participate if you want

Annebeth Lange, ccNSO:Also remember that you can change from observer to a participant if you want to get closer to the action :-)

Jelena Ozegovic (ccNSO):First time member here! :) Many thanks for the welcome

RAHUL GOSAIN:In this call I too will be available only on chat

Cheryl Langdon-Orr (CLO - PDP Co-Chair):noted Rahul

Juan Manuel Rojas (NPOC):Welcome Jelena!

RAHUL GOSAIN:Thanks Cheryl

Annebeth Lange, ccNSO:Could the staff please give the participants the link to the recording from the Abu Dhabi meeting?

Emily Barabas:https://urldefense.proofpoint.com/v2/url?u=https-3A__schedule.icann.org_event_CbGp_gnso-2Dnew-2Dgtld-2Dsubsequent-2Dprocedures-2Dpdp-2Dwg-2Dface-2Dto-2Dface-2Dsession-2Dii-2Dwork-2Dtrack-2D5-2Don-2Dgeographic-2Dnames-2Dat-2Dthe-2Dtop-2Dlevel&d=DwIFaQ&c=FmY1u3PJp6wrcrwll3mSVzgfkbPSS6sJms7xcl4I5cM&r=DRa2dXAvSFpCIgmkXhFzL

Cheryl Langdon-Orr (CLO - PDP Co-Chair):On que Emily!

Emily Barabas:And a recording of the communications tools session was circulated on the mailing list earlier today for those who would like to see it.

Annebeth Lange, ccNSO:Thanks, Emily! Very quick!

Emily Barabas:There is also a second communications tools session schedule for Tuesday 21 Nov at 10:00 UTC

Jeff Neuman (Overall WG co-chair):Adobe Connect allows people to edit their own personal information for these calls. You can go to the top right corner of the "Attendees" tab, click on the arrow and hit "Edit my Info". It is good to indicate next to your name the community to which you belong in parenthesis. Like NCSG, ccNSO, gNSO, GAC, etc.

RAHUL GOSAIN(GAC):Done thanks

Jeff Neuman (Overall WG co-chair):FYI - Geographic Names at the SECOND LEVEL are outside the scope of this group, but are being discussed in Work Track 2.

Cheryl Langdon-Orr (CLO - PDP Co-Chair):Yes Jeff great guideline to follow (and remeber when you join in future take the time to make the additional infor with your name ;-) as you log in

RAHUL GOSAIN(GAC):I was wondering how it was to be done but was afraid to ask

Cheryl Langdon-Orr (CLO - PDP Co-Chair):Never be afraid to ask :-)

Griffin Barnett:Emily, could you post a link to these slides?

jaap akkerhuis:There is a misnderstanding here. ISO 3166 is not avout names but about codes

Annebeth Lange,co-leader WT5 - ccNSO:It makes it easier for everyone if you add your affiliation as well as your name, as Jeff said

Heather Forrest:I have learned a valuable lesson from Jaap Akkerhuis, which is that ISO 3166 is best characterised as a "standard" rather than a "list"

Alexander Schubert.riga:To put it short: If the Government if Israel demands the assignment of ".israel" in the next gTLD round: We need to come up with a set of policies to enable them to do so. "Protecting" Israel from running ".israel" as a TLD looked strange in the 2012 round - but will be indefensible in the next round.

Cheryl Langdon-Orr (CLO - PDP Co-Chair):Jaap the slides are very much in shorthand - sorry, but I know you have previously prepared excellent titorial(s on this for other work in geo name use in TLDs perhaps we can also reference it for this WT to learn from...

Jeff Neuman (Overall WG co-chair):@jaap. ISO 3166 is about "codes", but the Applicant Guidebook also refers to the country and territory names that correspond with the codes

Cheryl Langdon-Orr (CLO - PDP Co-Chair):should read tutorial Jaap sorry about the typos

Kurt Pritz:@ Alexander: Too early

Alexander Schubert.riga:Or somebody explain to Mr. Erdogan that he can not have a .turkey - in order to protect Turkey from..... what exactly?

Emily Barabas:@Griffin slides are available here: https://urldefense.proofpoint.com/v2/url?u=https-3A__community.icann.org_x_FgNyB&d=DwIFaQ&c=FmY1u3PJp6wrcrwll3mSVzgfkbPSS6sJms7xcl4I5cM&r=DRa2dXAvSFpCIgmkXhFzL7ar9Qfqa0AIgn-H4xR2EBk&m=hzZy-EWRJeUMgmqJR2dXiM4LCJs42jDW0uyyB6_DPU4&s=yi5JRLbrqk_7BgkwOFcrMX_uHI0y6H_qGRmg5Fa1nUg&e=

Griffin Barnett:@EMily, thanks for adding the link there :)

jaap akkerhuis:The fonancial codes start with the 3166 codes folowed by a single character

Cheryl Langdon-Orr (CLO - PDP Co-Chair):Our mandate is specificlly to focus on Names not other reserve lists of names of course,

jaap akkerhuis:ISO 4217 I believe, in the same token there is ISO 6166, financial instruments)

Susan Payne:I don't think financial codes is ion our remit

jaap akkerhuis:or languages codes (ISO 639)

Alexander Schubert.riga:+1 Susan!

Alfredo Calderon:@All, I agree. Right now it is probably beyond our charter & Scope.

Juan Manuel Rojas (NCSG/NPOC):We are talking about Alpha-2 code, right?

Cheryl Langdon-Orr (CLO - PDP Co-Chair):This is an agressive (but it needs to be) timeline

jaap akkerhuis:alpha-2 is a generic term used in standards to denote a code consisting of two alphabetic characters. The term is used in multiple standards, not only 3166

Alexander Schubert.riga:Juan: I think there is an ICANN community wide broad agreement that no two letter ASCII codes should ever be assigned as gTLD!

Abdul Saboor (NCUC):i think our path is to follow ISO 3166-1 alpha 2 -3

Martin Sutton (co-leader):It is a challenging timeline but we should appreciate the fact that this group is focused on one topic, whereas the other work tracks have multiple issues to manage.

Karen Day:@Griffin - materials will be mailed afer the meeting and posted to the WT5 wiki here https://urldefense.proofpoint.com/v2/url?u=https-3A__community.icann.org_display_NGSPP_Work-2BTrack-2B5-253A-2BGeographic-2BNames-2Bat-2Bthe-2BTop-2DLevel&d=DwIFaQ&c=FmY1u3PJp6wrcrwll3mSVzgfkbPSS6sJms7xcl4I5cM&r=DRa2dXAvSFpCIgmkXhFzL7ar9Qfqa0AIgn-H4xR2EBk&m=hzZy-EWRJeUMgmqJR2dXiM4LCJs42jDW0uyyB6_DPU4&s=PHAD7sgQt99AeTd8rMaoMyACzEkTF7YSzwYr7Gk0A_w&e==

Martin Sutton (co-leader):And we can leverage previous work on this subject

Griffin Barnett:Thanks Karen, I did previously check the wiki page for this meeting, but they had not been posted yet when I inquired.

Karen Day:Sorry Griffin, my chat pod was out of sync, I see now you'd already gotten your answer

Griffin Barnett:No worries :)

Olevie:Hello

Kristina Rosette (Amazon Registry):Were the times cross-referenced against participant/observer list?

Farzaneh Badii (NCSG/NCUC):I am unclear on this "risk based approach" leadership is going to come up with. Any details somewhere ?

Ching Chiao:glad we have time rotations for future calls :)

RAHUL GOSAIN(GAC):Me too

Aziz Hilali:5:00 is too early in Africa

RAHUL GOSAIN(GAC):Glad that we are going to have rotating times

Terri Agnew:reminder: please mute when not speaking. On the telepone you can press start 6 to mute. If you have actived your Adobe Connect microphone, please mute the mic

Robin Gross:Will the chairing of sessions (between co-leads) rotate as well?

Martin Sutton (co-leader):@ Robin - yes, we will rotate the chairing amongst the co-leaders

RAHUL GOSAIN(GAC):@Robin:Hmm lets wait and find out

Jeff Neuman (Overall WG co-chair):@Aziz - the plan is to have incovenient times all around the world :). So yes 05:00 UTC is early in Africa (but really late in the east coast of the US - I think midnihght/1:00 am.

Annebeth Lange,co-leader WT5 - ccNSO:And remember - all questions are allowed!

Farzaneh Badii (NCSG/NCUC):so how many leaders this WT5 has?

Christopher Wilkinson:Robin - in principle, the co-chairs will rotate, but the exact modalities need to be worked out taking account of competing obligations for time and dtime zone.

Justine Chew:@Farzaneh, 4 -- see Agenda pod

Emily Barabas:Work Track 5 Co-Leads Olga Cavalli (GAC) Annebeth Lange (ccNSO) Martin Sutton (GNSO) Christopher Wilkinson (ALAC)

Robin Gross:Thanks.

Farzaneh Badii (NCSG/NCUC):thanks

Olga Cavalli - co chair WT5 - GAC:@Robin yes the idea is that co chairs rotate

RAHUL GOSAIN(GAC):How does one putout the green tick?

Cole Quinn, Microsoft/BRG:Unmute

Cheryl Langdon-Orr (CLO - PDP Co-Chair):you can clear your tick using the same drop down menu

Cole Quinn, Microsoft/BRG:yes

Cheryl Langdon-Orr (CLO - PDP Co-Chair):Perfect time for questions

Maureen Hilyard:Great idea Cheryl - to support newbies to the CCWG

RAHUL GOSAIN(GAC):Ok

Cheryl Langdon-Orr (CLO - PDP Co-Chair):Well Maureen I plan on suggesting you as one of the resource people ;-)

Cheryl Langdon-Orr (CLO - PDP Co-Chair):and it's a PDP WT Maureen :-)

Ching Chiao:<question> for IDN version of geo names, not sure how the co-lead and others plan to cover this topic ?

Kurt Pritz:To build on the questions of others: I'd appreciate a brief discussion on the "risk based" approach. How does that map to the issues to be discussed. Will it be sessions on: (1) risk with country names and then discussion of mitigations; (2) risks with city names and then discussion of mitigations, etc? Or will we discuss risks generally for all geo names?

Heather Forrest:Good questions, Kurt +1

Jeff Neuman (Overall WG co-chair):@Ching - Most of the principles we discuss should have some general applicability for IDNs, but we will need people like you and others to make sure that we are always thinking about how IDNs are impacted and to address those

Ines Hfaiedh:good questions Kurt

Cheryl Langdon-Orr (CLO - PDP Co-Chair):and re IDNs that is a topic for WT4 so there will be crossover matters we need to look at/ be aware of.

Ching Chiao:thanks CLO, and Jeff

Robin Gross:"Risk" for whom in this analysis?

Farzaneh Badii (NCSG/NCUC):Yes I wonder that too Robin.

Farzaneh Badii (NCSG/NCUC):explored by whom? the co-leaders listed here?

Cheryl Langdon-Orr (CLO - PDP Co-Chair):Perhaps this Risk Approach is an ideal topic to take to the mailing list for furtherdiscussion and deliberations?

Farzaneh Badii (NCSG/NCUC):consumer confusion? that has been always misused to actually protect others interest! I am not gonna go into this now but we need to discuss this risk based approach with the group

Heather Forrest:Do the co-chairs anticipate a DMPM-type data gathering exercise in carrying out this risk assessment?

Jeff Neuman (Overall WG co-chair):@Farzaneh - I think that was brought up for illustrative purposes only

Steve Chan:To Heather's questions, DMPM stands for Data and Metrics for Policy Making

Robin Gross:Yes, more discussion. Thanks.

Alan Greenberg:Prefer another def'n I found: Drink More Post More

Farzaneh Badii (NCSG/NCUC):more discussions with the group, that would be great.

Cheryl Langdon-Orr (CLO - PDP Co-Chair):If a DMPM data gathering is anticipated it would need to be looked at post haste with this tight timeline...

Kurt Pritz:I appreciate the fact that we will considering risks to consumer choice as well as the risk to delegation of some types of geo names

Farzaneh Badii (NCSG/NCUC):I have concerns if this risk based approach is being drafted only by co-leaders. I think we might need a drafting team.

Jeff Neuman (Overall WG co-chair):There are lots of risks......risks of preventing free speech, risk of confusion, etc......so risks can work in all ways

Heather Forrest:Suggestion: On the next call could co-leads please encourage more discussion amongst participants? It has been helpful to hear from co-leads on this introductory call, but our meetings should ideally be an opportunity for participants to discuss matters

Cheryl Langdon-Orr (CLO - PDP Co-Chair):Thanks everyone and special thanks to the WT Co-Leads for getting this group off to such a great start... Bye for now then...

jaap akkerhuis: Bye all

Justine Chew:I would like to repeat my appeal to the Co-Leads to use the WT5 mailing list to facilitate discussions, thank you.

Alexander Schubert.riga:I have a good feeling. This here starts off good! Thanks to the leadership! Can't wait for the 2nd meeting.
