

This is to express my interest and availability in serving on the Board of EURALO, 2017-19.

As a former civil servant, including 10 consecutive years as an Ambassador, I am attentive to the public interest. My more recent experience as a volunteer includes serving on international Boards, notably in ICANN. On the ICANN Board (2007-10), I was the initiator and inaugural Chair of the Public Participation Committee, and chaired the ccNSO Review. When a member of the ALAC (2010-14), I set up and co- chaired its Future Challenges Working Group. As a member of the ICG (2014-16), I took an active part in the Transition of oversight of the IANA Functions, arguably a milestone in ICANN's recent history. As co-founder and inaugural Chair (2015-17) of the EURALO Individuals' Association, I am familiar with and attentive to the needs of the global Internet user.

If elected to the EURALO Board, I would help enhance its overall relevance, for instance by improving its communication methods and tools.

Thank you  
Jean-Jacques Subrenat
