

## Policy WG Reboot

### Proposal

- Use the ICANN Evolution WG, possibly renamed. All meetings will be under its purview.
- Establish or repopulate topical Mailing Lists for
  - ICANN Accountability
  - New gTLDs
  - Registration issues (RDS/WHOIS)
  - Other topics as necessary
- WG mailing list and membership will be union of other lists.

### Benefits:

- Only one set of WG leaders
- When meetings are held, a larger audience to ensure all active At-Large participants are familiar with important issues
- Mailing list focal point for each topic with those who have a particular interest involved.
