Kris Seeburn: hi all.... looks like we still to wait

Kris Seeburn: thnaks...

Kris Seeburn: hope you managed to get some time off and celebrate

Nathalie Peregrine: Indeed, and best wishes to all for 2018!

Kris Seeburn: thats good then... +1

Julie Hedlund: Happy New Year Everyone!

Wolf-Ulrich Knoblen: Happy New Year!

Lori Schulman: Hi there

Pascal Bekono: Happy New year

Wolf-Ulrich Knoblen: Thanks Julie

Kris Seeburn: The rotation is good but it seems we are still trying to get it right....

Kris Seeburn: We end up with questions that was already addressed but it comes back

Kris Seeburn: I'll highly suggest on rotation meetings people get to read and digest the missed meetings we will need that to move on else duplication happens.. But i agree with wolf

Kris Seeburn: i think yes

Kris Seeburn: sounds good

Nathalie Peregrine: We'll mute the line

Wolf-Ulrich Knoblen: We helped her getting the job :-)

Wolf-Ulrich Knoblen: what is Feb 2017 relevant for?

Sara Bockey: Agree, why is Feb 2017 relevant. And the PDP would have to go thru IRT before implementing... so where would IRTP-C fall into this? Would it?

Kris Seeburn: i think there has been no pdp implementations...if i am not wrong

Kris Seeburn: most are incomplete at this stage

Marika Konings: This is what the PDP Manual currently says: "A statement on the WG discussion concerning impact of the proposed recommendations, which could consider areas such as economic, competition, operations, privacy and other rights, scalability and feasibility."

Marika Konings: not sure if Avri is referring to that? Or is there a separate PIA that I am not aware of?

Berry Cobb: The answer to Q1 on #16 is No. PIA has not been used. Likely first use will be the IGO CRPM PDP.

Sara Bockey: Also, CL&D was implemented in Aug... does that fall into this?

Sara Bockey: Guess maybe I'm not understanding...

Berry Cobb: Curative Rights Protection Mechanism

Sara Bockey: Consistent Labeling and Display

Sara Bockey: OK

Berry Cobb: PIA does not apply to IRT. This is an assessment of policy recommendations.

Sara Bockey: Ah, OK. Thank you. Got it now

Sara Bockey: it's early here ;)

Kris Seeburn: i thin avri has put that because she knows no much has been done from PDP

Kris Seeburn: i think we need to find the dealocks...and move

Lori Schulman: agree

Kris Seeburn:i think it has to be something to do with people with proper knowledge of what is bwing discussed

Pascal Bekono:Why EU GDPR is so important to have recommendations 26-29 pending ?

Kris Seeburn:i thought i saw a document from EU on for the internet, websites, ecommerce

Wolf-Ulrich Knobn:Any kind of data collection is falling - from a European perspective - under the GDPR

Kris Seeburn:i am sur there were two legal advise to ICANN on the gdpr

Lori Schulman:There were 3 memos of legal advice on GDPR

Kris Seeburn:just a question : Are there any guidelines of ethics on mailing and or WG/WT/ccwg?

Because at tmes things tends to degenerate ...i would be happy that these are taken care of.

Marika Konings:@Kris - the ICANN Standards of Behavior also apply there

Kris Seeburn:i agree

Kris Seeburn:then these to be fully enforced

Marika Konings:@Kris - there is at least 1 example where a WG member was removed due to failure to meet the standards, despite numerous reminders.

Lori Schulman:Good meeting.

Lori Schulman:Thank you to staff for making it so easy for us

Lori Schulman:intersessional and board workshops are 1,2

Wolf-Ulrich Knobn:Interseasonal

Nathalie Peregrine:We will go over all the invites after the call

Sara Bockey:Thanks all!

Wolf-Ulrich Knobn:Thanks and bye!

Lori Schulman:bye

Kris Seeburn:cheerio bye

Kris Seeburn:tc
